Welcome to the CU*BASE Demo Guide

Version 17.03

Introduction

This guide is intended to assist sales staff in preparation for presenting a “high level overview” demonstration of CU*BASE to prospective credit union clients. Additionally, it may be useful as a handy reference tool for new staff hired to CU*Answers, new hires of CU*BASE clients, or others in the credit union (CEO/Board Members) who may need to quickly understand the workflow and functions within the system.

This document is not intended to take place of the considerable amount of reference materials and documentation available for our staff and clients; rather, it is to be used as a quick hitting reference guide.

The two major areas of focus for this guide include:

- **Presentation Workflow** – Providing a framework for introducing CU*BASE to non-users of the system in a manner that highlights practical application and utility.
- **Explanation of Feature Benefits** – Describing not only the technical use for a specific toolset, but also including verbiage that can aid a prospective client (or new staff member) in better understanding how these tools relate to direct operational needs.

How to Use the Demo Guide

The updated format is designed to help users of any experience level—whether you’re new to CU*BASE or an experienced user, this guide is for you.

As was the original CU*BASE Demo Guide, this document is organized into three columns. The general idea of the layout is the same, but with some added tips and other considerations.

If you are new to CU*BASE, focus on the first two columns

- **Column 1, or Navigation Flow** – this is generally a screenshot of the CU*BASE feature or tool being highlighted. For areas featuring the CU*Answers website or related partner sites, a hyperlink is located below the graphic. In some instances there is additional description of how to navigate to that specific screenshot, even providing alternate access points for that specific feature or tool set.

- **Column 2, or Topic Focus** – this provides the basic descriptions for the area or areas being presented. The first two columns alone provide the basic framework for a CU*BASE High Level Overview demo, but lack the supporting “sales jargon.”

Also watch for the in the second column, which is a direct link to the procedures in the “Show Me the Steps” help system.

As you begin to feel comfortable with CU*BASE and can relate its uses to a prospect, begin including more talking points—also referred to as “sales benefits”—from the third column into your presentation.

If you are an experienced CU*BASE user

Watch for the icon and the boxes, which indicate either a feature implemented within a recent release or a project currently in development.

**NEW:** Keep an eye out for the CU*Answers Imaging Solutions logo to see where our e-document strategies have been seamlessly integrated within the CU*BASE platform for the optimal user experience.

**Other Useful Tips:**

- Each section (Member Service vs. Lending, for example) has a color in the heading boxes that remains consistent for that portion.
- Headers include the approximate amount of time that should be spent explaining that particular section during a live demonstration.
## CU*BASE Demo Guide

### Overview – 30 minutes

**CU*Answers**

- **Topic Focus**: Introduction to CU*Answers and discussion of how our business model impacts our SDLC, etc.

- **Talking Points**: Tailored to Client Collaborative CUSO model

### Welcome Screen

- **Navigation**
  - Discuss various navigation options - point and click, F n key, etc.
  - Navigation system completely redone with 17.03!

- **Talking Points**: Great for mouse lovers - which is typical of young generation preferences. Function keys available for those established staff members used to having them.

  Customize your settings to see only the tools you want, in the order you want. Advanced keyword search capabilities allowing you to search both tool titles and their respective definitions.

### cuanswers.com & Network Links – 45 minutes

#### CU*Answers Home Page

- **I am a Client**
  - Access via “I am a Client” from the CU*Answers homepage

  CU*Answers client news & updates posted to this page.

  **Talking Points**: NO special password or sign-on required.

  All reference material/documentation provided to every workstation; no one writes more documentation than CU*Answers.

#### CU*Answers Kitchen

- **Kitchen**
  - New things being worked on at CU*Answers; great tool for seeing the latest “recipes”

  **Talking Points**: These are some of the large topic projects that are currently in varying phases of development.

  These 'recipes' are not designed to show you the nitty-gritty specifics but rather showcase the general ingredients involved and the 'chef' who is your point person if you do want more information.

**CU*BASE Release Summaries**

*Show Release Summaries from last 13+ yrs*

Easy location to review previous releases

All Release materials from all Releases of last 13+ years available at any time for instant viewing.

Shows depth of CU*Answers projects and development.

Show what was added with latest release.

**Peer Analysis**

Complete CU*BASE Client Guide

No preferred client list; every CU*BASE client listed, including contacts, demographics and features utilized.

**Education**

No one offers more ongoing education than CU*Answers

Highlight annual calendar of offerings and on demand multi-media education available

Wide variety of education options including face-to-face, online, regional, and local credit union offerings.

CU*Answers sees 1500+ CU staff annually for face-to-face education.

10 layers of education offerings; free CU*A University.

**CU*BASE Custom Training Edition**

The CU*BASE Custom Training Edition (CTE) is a new alternative to the shared simulated training environment (Bedrock Community CU) currently used by all CU*Answers online clients. For a one-time setup fee plus a monthly maintenance fee, you can have a copy of your own membership data set up as a training environment, available only to your credit union’s employees.

## System Availability

**Uptime**
- Graphical display of CU*BASE uptime history
- Greater than 99.99% scheduled uptime

**Talking Points**
- Historical recap of CU*BASE uptime, including It’s Me 247 and CU*Talk.

## Disaster Planning

**DR/HA**
- CU*BASE includes a documented, audited DR planning process
- Best Practices
  - Published Results for anyone to view

**Talking Points**
- Six layers of DR, highlighted by a complete HA strategy and rollover.
- Series of White papers defining CU*BASE hardware, network specifications, file format specifications from 3rd party vendors.
- Part of the CUSO experience is open disclosure. We publish all our HA rollover test results – including details of any issues encountered.

## Related Sites & Client Support Resources – 30 min

### CU*Answers OnDemand

**OnDemand Site**
- Online repository/launching point for CU*Answers multimedia information and education
- Marketing Videos for Credit Union members and CU*BASE clients as well as sneak previews & tutorials

**Talking Points**
- CU*A OnDemand for providing multimedia information and education on key CU*BASE training topics and other issues.
- Also home to on demand recordings of exclusive training sessions (Release Trainings) and versions of PowerPoint slides from select CU*Answers Events.

### Audit Link

**Audit Link Site**
- Online website for all things related to audit and compliance services offered via the teams at CU*Answers Management Services & Xtend

**Talking Points**
- Internal auditing/compliance updates.
- Includes open forum for credit unions to talk about issues affecting their membership.
- Login access to the Risk Management Report Generator for clients.

Solutions

Products are just the start; CU*Answers goes above and beyond to help credit unions get the most of their investment.

Talking Points

Services are wide ranging, including but not limited to:

- Accounting
- AuditLink
- Business Continuity
- EarningsEdge
- Lender*VP
- Marketing
- Network Services
- OpsEngine
- SettleMINT
- Web Services

Performing Due Diligence

Are You Completing an RFP?

Guide for helping lead clients through the maze of the RFP process.

Talking Points

A complete guide to a step-by-step process in performing due diligence research.

Documented process for helping clients evaluate CU*A as per their due diligence.

Submit an Idea

Help CU*BASE Development

Online idea form for starting a dialogue.

Talking Points

Submit an idea for a new feature or enhancement to a particular team, or directly to the CEO; client response required back; eliminates traditional “black hole” for ideas.

80% + of all CU*BASE enhancement ideas come as a result of client input; far exceeds industry standards.

Monitor

Follow Up on Projects

CU*Answers Project Review

Shared project review tool for reviewing internal and other peers’ projects being worked; designed to keep clients informed of project status.

Provides instant status update to project requests being made by internal CU team.

Email updates provided to CU as project moves within departments at CU*Answers.

</table>

This screen is accessed after the Teller Processing screen and prior to the Teller Posting screen.

Loan Quoter: “81 Payments” screen

Verify Member

This screen is accessed after the Teller Processing screen and prior to the Teller Posting screen.

Rate Inquiry

Access this by clicking the Rate Inquiry button at the bottom of the nav screen.
Phone Operator – 40 minutes

Phone: Account Processing

This screen will appear after choosing an account on the initial Phone Operator member lookup screen.

**Phone Operator Account Processing**

Cashless teller system able to perform a wide variety of transactions – an action screen for assisting members quickly

**Phone Op Action Codes**

Deep Member Relationship analysis tools (Tiered Services, Transaction Activity, Cross Sales and Household Statistics).

Account Designation by type of account; team able to talk more intelligently with members.

**Phone Operator Wrap-up Codes – A Tool to Track Call Center Activity**

Interested in monitoring the types of calls your call center takes? Looking for ways to improve its efficiency or to find areas where better training is needed? Activate Phone Operator Wrap-up Codes to assist in these areas.

When an employee exits Phone Operator, the Phone Operator Wrap Up screen appears and requires the employee to indicate the type of call by selecting a configured Call type code and the Primary subject for call. Analysis tools will let you review your activity to determine where changes should be made.

New with 16.10, configure wrap up codes to create a 1-click tracker, saving call center time.

**Member Account Comments Pop-Up**

This window is used to display Account Comment records pertaining to this member

**Adding a Comment**

Automated CU*BASE generated comments, such as loan delinquency alerts, stop pay requests; or, manual comments entered by a CU employee regarding how this member's account should be handled.

**My Other Accounts**

Quick view and access to other accounts to which a member has access

Easily access an individual’s entire relationship with the credit union

Lists not only other memberships for which the member is the primary account owner, but also any other accounts for which they are associated (trustee, joint owner, beneficiary, co-borrower, etc.).

Jump to the membership selected without needing to back out and re-key the account number.
**Tiered Points Score Inquiry**

*This window appears when you click on the Tiered Services Points badge for the member from the Main Inquiry, Phone Inquiry, or Teller Posting screen.*

**Tiered Service Points Inquiry**

- **Talking Points**
  - Track member behavior and participation; determine member profitability
  - Tool for better understanding your members; preferences for how they use CU delivery channel for performing business – assists in designing approach strategy to market different demographics.
  - Fully configurable points redemption system available to create CU rewards and promote additional activity.

**Current Month Activity Compare**

*This window appears when you click the Transaction Activity button on the main Inquiry, Phone Inquiry, or Verify Member screen.*

**Current Month Activity Source**

- **Talking Points**
  - Track transaction delivery channel usage
  - Tool for better understanding your members; preferences for how they use CU delivery channels for performing business.
  - Ability to build scripts for talking more intelligently (marketing points, member verification) as based upon style of member.
  - Ability to begin a conversation with the member that shows you know the member and his or her relationship with the credit union.

**Teller Activity for this Member**

*This window appears when you click the Teller/Cash Activity button on the main Inquiry/Phone Inquiry transaction history screen.*

**Activity for this Member**

- **Talking Points**
  - Track teller usage for an individual
  - Provides a history of the member's activity when visiting a teller branch
  - Gives a complete picture of the transactions for a member across all branches including shared branch locations.
  - Can be used to detect fraudulent activity by an individual.
Household Statistics

This screen will appear via the Household Statistics button on the Phone Operator or Inquiry screens.

Cross Sales Tasks

This screen will appear when Cross Sales Tracking List is selected from the Sales Tools window in Inquiry or Phone Operator. It will also appear when you click the Cross Sales button on the New Account Creation screen.

Viewing Household Members

Ability to analyze member’s entire household relationship

Talking Points

An excellent tool for better understanding member relationships; target marketing to select household members.

Householding includes member and non-member relationships.

Includes detailed product analysis and statistics including product usage, financial summary, credit score analysis, and more.

Cross Sales Tasks

This is the first screen used to track cross-selling activities with members

Tasks are grouped according to “Need Groups” to better organize tasks according to a member’s situation and needs

Select a task and choose the option “Create Conv” (or double click) to add a note about your current interaction with a member

Talking Points

Embedded cross sales tool designed to “track” every member conversation, responses and on-going sales activity.

Cross sales dashboard and configurable sales incentives make it easy to track staff bonuses.

Cross sales system linked directly to CU*BASE Sales Tracker for easily viewing/updating every member interaction.

Ability to quickly log a cross sales tracker from Inquiry, Phone Op, and Teller.

Next Suggested Product

We’ve adapted our Cross Sales Tracking and related Sales Tracker tools to provide more intuitive reminders to staff about products and services the credit union wishes to promote more aggressively—that applies to that particular member, based on your analysis of the member’s actual relationship with your credit union. Once activated, employees will be notified in CU*BASE that the member qualifies when assisting the member. Visit the Teller section of the demo guide to see more!
### Cross Sales or Pre Approvals

This screen appears when you use F10-Decision on the Credit Report – Summary screen. It will also appear after clicking the “Pre-Approvals” button on the Loan Recap, and Phone Operator.

#### Credit Report Decision

If the button reads “Cross Sales”, click it to display the Sales Tools window to access the Cross Sales Tracking task list or other CU*BASE sales tools.

-OR-

If the button reads “Pre-Approvals” click it to display the Credit Report Decision screen showing the results of the auto-decision process for this member.

#### Talking Points

- All staff instantly knows a member’s pre-approved products and services as based upon template developed.
- Licensed Decision Model – provided to clients at considerably discounted prices ($0.50/decision).
- Ability for client to pull a credit report and instantly have pre-approval information to every desktop.
- This screen lets you quickly say “yes” to your member for any credit union product or service.

### Cross Sales Analysis Dashboard

In the past, you could run a report to view your team’s cross sales activity. With the 15.0 release, we added an all new dashboard and added the ability to include an incentive amount. Check out the Management Tools and Dashboards section for more info!

### Working With Member Follow-Ups

Access this option by selecting Follow-Ups on the main Phone Operator screen or from Tool #998.

#### Working With Follow-Ups

Button appears if member has any outstanding follow-ups to be worked.

#### Talking Points

- Instantly informs staff about previously discussed cross-sales opportunities, allowing them to speak more intelligently with members.
- Includes sort options to specify date, employee ID, or account number.

### Telemarketing Trackers: Following Up on Sales Leads (Tool #988)

#### Work Sales Trackers

Automated tool for following up on member leads.

- May be sorted by a variety of criteria such as employee, sales tracker type (marketing campaign)

#### Work Tracker from Cross Sales

Embedded within Cross Sales to easily review every conversation team has had with a member for targeted product sales.

- Quickly start a new conversation or follow-up on an existing conversation for any new sales leads that come up during routine contact (frontline) or targeted marketing campaigns.
<table>
<thead>
<tr>
<th>Secondary Names Inquiry</th>
<th>Talking Points</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>This screen displays all joint owners, beneficiaries, and additional signer names that are attached to this member's sub-accounts</strong></td>
<td>Via single screen, view unlimited joint owners, beneficiaries, additional signers. Single click option to display scanned photo IDs or to scan IDs.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>

</tbody>
</table>

<table>
<thead>
<tr>
<th>Phone: Printing a Member Check</th>
<th>Talking Points</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>This screen will appear when you choose the “Check” action.</strong></td>
<td><strong>Laser check print options</strong> Ability for staff to provide instant corporate laser checks. <strong>Issuing a Corporate Check</strong> Fills in available member data for completing check, including related fees (linked to tiered service options).</td>
</tr>
</tbody>
</table>
### Phone: Member Account Transfer

**Phone Transfers**

*This screen is used to transfer funds between sub-accounts or memberships*

- **Transfer Funds**

**Talking Points**

*Tracks number of phone transfers completed; ability to charge fees based upon transfers performed/member relationship.*

*See a before and after snapshot of both accounts before posting.*

*Quick access to the Verify Member screen if performing a transfer for a member over the phone.*

---

### Phone: Viewing Transaction History

**Transaction History**

*Display of detailed transaction account history*

- **Transaction History**

**Talking Points**

*Variety of search techniques to view desired history by debits, credits and checks.*

*Toggle features provided for viewing plastics transaction detail.*

*Ability to print receipt/e-Receipt data.*

---

### Wire Transfer

**Post Wire and Fee**

*Post wire and fee to member account*

- **Perform a Wire Transfer**

**Talking Points**

*Instant scan is performed by the system to check the recipient against the OFAC list.*

*Use Wire Transfer codes to ensure proper posting to G/Ls.*

*Ability to pull report of member wires created; use as checklist for wires completed via Fedline.*
### Phone: Loan Account Payoff Inquiry

This screen is displayed when you choose the “Payoff” action in Phone Operator.

### ATM/Debit Card Activity Inquiry

Access this screen by selecting OTB/Cards (F17) in Phone Operator.

### Displaying OTB loan transaction history in Inquiry/Phone Operator

The Off Trial Balance (OTB) database lets your credit union display balances and other details about your non-CU*BASE-serviced accounts to members online and to staff via CU*BASE, but until now the only way to show the transaction activity for these accounts was to set up an SSO link to a vendor website. So we created a new database designed to allow you to receive transaction history records from your OTB vendor, then display them to staff via CU*BASE Inquiry and Phone Op.

### Credit Card Inquiry

These screens provide account information unique to CU*BASE online credit card loans and include things like amounts owed by charge type (purchases versus cash advances, for example) and statement history.

</tbody>
</table>
Name/Address Maint.

This screen appears when you use Name/Address (F14) on the main Member Inquiry or Phone Operator screen.

Sales Tools Window

Sales Tools

Summary of various sales tools offerings

Single screen for choosing desired sales related function, including Cross Sales, Loan Quoter, Marketing Clubs, Rate Inquiry and Tiered Services.

Tax Information Inquiry – SSN

Access this screen by Tax File Inquiry in Phone Operator.

Updating Account Nicknames

Accessible from Phone Operator as well.

Address, DBA & Other Maintenance

Perform name/address file maintenance

Ability to modify address, add alternate address (snow birds), DBA updates.

Update Personal Info

Capability to plug-in to and from date of return for automated process.

Member able to change via online banking option as well.

Alternate address processing now available as an EFT feature for members who are traveling.

IRS Tax File Inquiry

Dividends and interest paid

Linked by SSN, displays dividends, CD Penalty, 1098 and other loan interest paid.

Savings bond redemption activity tracking recorded to a member’s SSN for the year.

All account bases and suffixes for the same Social Security or Tax ID number will be listed together.

Update Account Nicknames

Member nicknaming of accounts

Easy differentiation of accounts; filtering included.

Changing Nicknames

Nicknames are designed to allow your members to assign their own description to a specific sub-account. For example, instead of such as “Sub Shares” or “IRA Certificate” the account could be called “College Fund” or “Roth IRA CD.”
**Member Service – 50 minutes**

**Member Service (category MBRSRV)**

</table>
Tellers can now perform negative balance overrides

As a courtesy to members, many credit unions allow a member to make a teller withdrawal to a negative balance, in anticipation of a pending ACH or payroll deposit. In the past, this involved posting an account adjustment, but now you can activate a new optional transaction override type that will allow tellers to post these withdrawals right at the teller line.

Cash Transaction Reports

<table>
<thead>
<tr>
<th>CTRs from CU*BASE</th>

</tr>
<tr>
<td><strong>Export results for Member Connect marketing message.</strong></td>
<td>Four screens of analysis on the results, including a PDF export function for board reports!</td>
</tr>
</tbody>
</table>

### Import Prospective Member Names into Pending Membership Apps

Imagine being able to purchase lists of prospective members from external sources and having an easy way to import them directly into CU*BASE to be worked by your team. Now you can! Use the Work Online Banking Apps/Requests function to import a list of name from a .CSV file and get to work on signing them up.
**Opt In/Opt Out Maintenance**

Access this screen through Inquiry and Phone Operator.

**Overdraft Service for ATM/Debit Transactions**

Talking points

- **Using this maintenance screen, an employee can record the member’s Opt In/Opt Out selections**
  - Membership level selection is made by checking the In or Out checkboxes at the top of the screen.
  - Ability to drill down to a sub-account level to indicate which account should be Opted In or Out.
  - Helpful messaging alerts the employee if an initial selection has not been made.

**Vault Control (Category VAULT)**

**Head Teller/Vault Control**

Talking Points

- **VAULT category designed to provide a variety of head teller/vault control functionality including buying and selling of cash to and from vault**
  - Simple, automated process to handle teller buys and sells to vaults/TCDs and TCRs; vault inventory status.
  - Secured location for handling previous day(s) reversals.
  - Teller, Vault (regular and supplemental) cash transfer inquiries. TCD/TCR activation and control.

**Vault Control (Tool #35)**

**Teller/Vault Transfers**

Talking Points

- **This second and final screen shows the current status of vault, including teller drawer and daily activity information.**
  - Track daily change fund activity in one easy location (more detailed inquiries also available for TCDs/TCRs, vault transfers, etc.).
  - CU*BASE integrates with a variety of TCD/TCR vendors; linked directly to a credit union’s vault and G/L totals.
**It's Me 247 Online Banking – 25 minutes**

### It's Me 247 Logon

Access practice account online: [https://obc.itsme247.com/087](https://obc.itsme247.com/087)

### Practice Account **Talking Points**

**Log in to practice account and highlight Online Banking Community**

Customizable by credit union to include links to various CU website pages, CU Facebook and Twitter profiles, and a different background color.

**Account numbers:**
1782, 2007, 3910

Online Banking Community (OBC) shows your members what else they can do in online banking, as well as displays online banking education about security.

**Password:** 123456

**Security questions:** 'test'

### Messages **Talking Points**

**Electronic message board to keep members informed**

Member able to activate various e-Alerts, including e-Notices, account balance limits, and loans due—send messages directly to members’ message center from CU*BASE.

Unread messages prominently displayed upon member attempt to access account info.

### My Messages

**Messages**

### My Accounts

**My Accounts**

**OtB and Investment accounts can now be seen with other credit union accounts online!**

### Account Overview **Talking Points**

**Single screen overview of accounts**

Comprehensive account overview including account summary, nicknames, history, check image retrieval, Tiered Service levels – variety of cross sales tools.

Ability for member to review pending ACH transactions, secured funds, view dividend details for current/previous year and closed accounts.

---

**Qualified Dividends Products Can Now Be Sold Online**

With two recent releases, we added the ability to include qualified dividend products on the rate board in online banking. Members can also track their qualification progress online, seeing what they need to do to qualify for a higher rate.
### My Other Accounts (See/Jump)

**See/Jump**

- **See my other account balances at the credit union**
- **Jump to other accounts for which I am an owner—a single sign on function in It’s Me 247**

**Talking Points**

- With See/Jump controls, members have the ability to indicate what other accounts at the credit union can transfer money to their account, and what members can even jump to their account from online banking.

- Perfect for the member with multiple accounts at a single credit union.

### Transfer Money

**Transfer**

- **Transfer wizard for leading member through transfer process**
- **Credit union can optionally allow members to set up recurring transfers as well**

**Talking Points**

- Transfer internally, to other members (member controlled); A2A capabilities.

- Ability for members to enter an optional transfer description for memoing purposes to help identify the transfer.

- Displays scheduled transfers.

### Nicknames

**Nicknaming Accounts**

- **Show Nicknames option**

**Talking Points**

- Ability for member to customize account names; great tool to easily differentiate accounts.

- Nicknames displayed both in online banking for Member Account viewing as well as in CU*BASE for CU staff or assisting in branch.

### ACH Transactions

**Pending ACH**

- **Show Pending ACH transactions to be posted**

**Talking Points**

- Eliminates many member phone calls; member easily able to determine pending ACH payments.

- Allows members to define electronic deposit distribution preferences from within online banking; doesn’t require staff assist.
### Checks Cleared

**View Cleared Checks**

*Search for desired cleared check data, or use the member document portal for advanced document delivery and research capability*

**Talking Points**

- Variety of search capabilities; image check retrieval options.
- Member document portal allows check search, check deposit and check deposit status inquiries.

### Tiered Services

**Tiered Service Scoring**

*Detailed breakdown on points earned, and rewards received*

**Talking Points**

- Members can see a detailed breakdown of how they earned points, and what they can do to earn more.
- Check rewards for each tiered service level to incentivize using more credit union products and services.
- View history of Reward Points added, redeemed, and available.

### Apply Online

**Apply for Loan Online**

*Illustrate Ability to open/apply online*

**System allows for instant approval response**

**Talking Points**

- Online loan application linked to CU*BASE lending platform; auto-pulls credit report, run through risk-based pricing/decision model; auto-populates CU*BASE.
- Promotional rates can be set up for members that apply for loans online. Loan products can be set to allow application online or for info only.

### Certificates

**View/Purchase Online**

*Allows members to purchase accounts in It's Me 247 using existing funds*

**Talking Points**

- Account is opened immediately; doesn’t require CU staff intervention/assist.
- Members can specify joint owners.
- View detailed account info online.
- Either configure default renewal options, or allow member to select how their certificate renews.

</table>

*Added with the 16.12 release*
Credit Score History in Online Banking

Show Credit Score Online

Sharing credit score history in online banking allows you to share the credit scores on file for your members. You've paid for the score. Why not show it to your member’s attention, give them a bit of education, and then tell them how you can use that score to build a loan just for them?

The idea is to be more transparent about what records you show and to start a conversation with a member who is curious about their score and how your credit union uses it.

Decide which scores will show, based on how long ago they were pulled.

Ideal for the credit union that runs regular soft credit pulls to keep member credit scores up to date.

Member Selected Statement Styles

Selected Statement Styles

Use statement styles to drive greater e-Statement enrollment at the credit union

Member Selected Statement Styles drive the idea of statements having value.

Charge different amounts for different styles: eventually e-Statements may become your only free option.

Once Statement Styles are activated, members not already enrolled in e-Statements will see the new “My Printed Statement Style Options” page in It’s Me 247.

Smart Messaging for “It’s Me 247”

Smart Messages

Promote additional services, such as bill pay and eNotices, to members through online banking.

Activate “Smart Messages” to market selected products to targeted members in the form of a graphical advertisement, all while they bank online.

Professionally designed marketing graphics prepared by our Web Services team.

Choose a variety of services to promote including, e-statements, e-notices, e-alerts, mobile web and text, bill pay, and more.
My Virtual StrongBox Integration Added
In addition to the existing third-party integrations in **It’s Me 247**, like Money Desktop for PFM, we recently added integration to My Virtual StrongBox. The service allows members to store files securely without leaving the safety of their trusted online banking provider, via a single sign on.

### Promise Deposits
**Deposit Checks Online**
- **Talking Points**
  - Better than an ATM—funds are available immediately.
  - For trusted members—the credit union controls who is given access to this privilege; enrollment approval is needed to activate the service.
  - Free to use and no equipment necessary!

**CheckLogic Mobile**
- **Talking Points**
  - Make a deposit on your smartphone.
  - Push notifications sent to phone indicating deposit acceptance.
  - Same high level of security as **It’s Me 247** Online Banking.
  - Decisions for enrollment and acceptance of deposits are in your control.

**CheckLogic Mobile** is powered by eDOC Innovations.

### Mobile Deposits
**CheckLogic Mobile**
- **Talking Points**
  - Make a deposit from the convenience of your home, office or anywhere you want to be with your iPhone or Android device.
  - Check status can be obtained online anytime through your member document portal.

### Mobile Web
**It’s Me 247 Mobile Web**
- **Talking Points**
  - Creates a consistent user experience on mobile devices.
  - Marketing materials are available for credit unions.
  - Same high level of security as **It’s Me 247** Online Banking.
  - Previews available for both iPhone and Android-based devices.
  - Nearly same functionality as traditional desktop banking.

**It’s Me 247 Bill Pay now available from Mobile Web**
- **Talking Points**
  - Free Mobile Web offering
  - Get a custom theme modeled after your credit union site
  - New features added to provide desktop-like experience from the convenience of your phone
  - Many features added with 16.11 release

</tr>
</tbody>
</table>
### Membership Application Process

- **MAP**
  - New membership application process for credit unions looking to expand their member base
  - Lays the groundwork for membership opening process

- **Talking Points**
  - Newly redesigned to make it mobile friendly, add features, increase customization, and enhance the member experience.
  - Custom brand your CU logo and site colors. Set eligibility requirements and attach informational PDFs. Create promotions to target specific segments of the community. Add testimonials to help sell your credit union.

### Lending – 60 minutes (Loan Configuration & LOS/Lender*VP)

#### Loan Category Configuration (Tool #458)

- **Loan Category Definition**
  - “Rules of Engagement” for CU*BASE processed loan
  - Show sample CC card configuration which adds additional options as related to program offering, fees, etc.

- **Talking Points**
  - May have up to 1,296 loan categories. Considerable flexibility for organizing various loan categories; interest processing & rates; G/L postings; payment matrices.
  - Loan Underwriter Approval Limits can be set to designate the maximum loan amounts an underwriter is authorized to approve.

#### Loan Product Configuration (Tool #470)

- **Product Category Configuration Selection**
  - How the loan is marketed to member via CU*BASE delivery channels
  - (Shows many functions – tips, procedures, checklist, etc.)
  - Goal is to organize each loan product to default as many fields as possible (reduce keying)
  - Includes automated Risk-Based pricing and Decision Modeling features

- **Talking Points**
  - Risk-Based pricing strategy for automatically pricing of loans.
  - Loan delivery (Online Banking) and Loan Quoter default loan options.
  - Loan procedures and marketing tips for staff to talk intelligently with membership.
  - Capability to build multiple insurance options; electronic checklist tasks for tracking progress.
### Loan Workflow/App Check Config (Tool #475)

**Loan Workflow Controls**
- High degree of customization for loan application workflows
- Change what screens loan officers have to work through based on the loan type
- Activate App Check for a final verification of loan applications

**Talking Points**
- Allows the credit union to narrow down the loan application from 10 screens to only those critical for a particular product.
- App Check is activated at the employee level, so it can either be used across your entire lending staff or only with new loan officers still learning.

### Skip-a-Payment Program Config (Tool #820)

**Skip-Pay for Consumer Loans**
- Top pick for Lender*VP priorities, the feature automates most of the manual processing done by credit unions before

**Talking Points**
- Easy to configure—“programs” are created to set a skip payment promotion with rules, and date and loan restrictions.
- Easy for staff to enroll members—a separate Member Skip-Pay Program Opt-In screen makes it easy for staff to enroll members, without worrying about whether the member is eligible.
- Easy for members to enroll online—if the member qualifies, the member will see a Skip-Pay button next to the loan in their online banking account summary. They can follow easy prompts to complete the process.

### Skip-Pay History Dashboard (Tool #817)

**Skip-Pay Dashboard**
- Slice and dice skip-pay programs for consumer loan products to determine how members are using them

**Talking Points**
- Narrow down skip payments processed by date, skip pay program, staff ID, and whether the payments were skipped internally or by members online.
- Use the analysis to get a high level breakdown of payments skipped.
- Supplemented with Common Bonds and Member Connect to make the dashboard a robust analysis and ASAP tool.
Lending Functions (Category LOANS)

**CU*BASE** includes a comprehensive LOS system

Central location for Lending Functions; Member Loan Processing, Loan Team Communications; Member Services, Print Functions, Mortgage Escrow Processing, Indirect Lending and more.

**Work/View Application Status (Tool #2)**

**Loan Queue**

Single screen view of credit union’s loan application pipeline

Multiple views and layouts to assist in loan queue development, as well as multiple sort options (category, channel, etc.)

Visual, centralized underwriting tool for reviewing/approving entire CU’s lending pipeline – includes Pending, Booked and Denied applications.

Action buttons on bottom provide added functionality such as working with loan, review underwriting comments, checklist status and more.

**Application by Status**

Application trend analysis (last 30 days)

Dashboard tracking of activity during previous (4) week period

Ability to sort by branch, loan category, interviewer, underwriter and delivery channel.

Graphically displays application status; may easily review lending pipeline status for month- what needs to be worked.

**Statistics**

Displays loan application statistics for comparative months

Instantly review how loan application volumes and $ compare month to month.

Easily shows trend for how months differ from each other; provides variety of graphical tools for displaying variances.

Complete Loan Application

Collect employment, income, assets, debts, and loan app comment information, as well as review a summary and ratios and print loan application forms

Simple step through process to complete the loan application.

Information is automatically store in the household so that it prefills next time.

Credit reports auto-fill debts for huge time savings.

Electronic Form Packaging

Manage, package, sign, and file electronic loan forms using this integrated partner solution

Packages allow branch network to access forms when members need to sign remotely, or when any transaction needs to be flexible.

Scan forms brought in by members to store electronically

Electronic forms automatically presented for packaging.

Form inputs can be done on the form, electronic filing and indexing automatically occurs as part of the form packaging.

Forms packaged electronically can be signed electronically in branch, or sent out for eSign. Transaction packaging allows staff to capture, manage and/or scan all related transaction documents, and follow-up on things like insurance certificates or lien verifications after the loan is closed.

Create Loan Account

This screen is used to create the loan account

Request additional maintenance screens to record other information about the loan, such as additional signer names and collateral items, or to issue automatic transfer or payroll deduction instructions

Automatically assigns new suffix; credit report stored for life of loan.

Complete relationship with Prime Alliance for web-based mortgage application/LOS.

Capability for servicing mortgages even if selling to Fannie/Freddie; uses Participation Lending software. Print and Disburse from here too!
Disburse Loan Funds (Tool #50)

This is the second of two screens used to process loan disbursements.

Disburse Member Loan Funds

Ability via single screen to disburse loan funds

Ability to disburse funds via cash, laser check or member transfer to desired account.

Ability to also distribute to G/L acct; very flexible disbursement options.

Laser checks may be printed one after another; member information prefilled.

Misc. Loan Maintenance (Tool #51)

Misc. Loan Maintenance

Single location for additional loan maintenance such as additional signer changes, AFTs, collateral, payment matrix, etc.

Centralized location for additional loan maintenance functions related to the loan account.

Easily Update Collateral Record to Current NADA Value

With the 16.10 release, a tight integration between CU*BASE and the NADA to populate the automobile’s current value directly into the collateral record was added.

Electronic Loan Check List

This screen is used to track the progress of the loan application by way of an electronic ‘to do’ list of tasks to be completed

Electronic checklist for verifying paperwork status for any loan; allows any staff to talk more intelligently with member re: most current status/tells number of days to complete.

Audit report for verifying activity completed for files.
Loan App Statistics Inquiry (Tool #455)

### Loan App Statistics Inquiry

- **Dashboard loan applications comparison screen**
  - (Same as appeared under activity tracking)
  - Wonderful dashboard tool for comparing loan app. volumes and other info for trending purposes.
  - How many applications this month vs. last month, quarterly, and more; can be sorted by pending, denied, and booked – excellent graphical tools for Board of Directors.
  - Easy Excel download process; single click graphics comparison over time.

### Extended Loan Processing: Student Loan Processing/Escrow Analysis

- **CU*BASE includes escrow processing as standard**
- **CU*BASE will accurately calculate escrow for 365-day loans for multiple payment made in the same month**
- **Bills are paid by the CU (tax, insurance – by payee) when they are due**
- **Member receives annual escrow analysis statement explaining how escrow funds were used; notifying them of payment changes**
- **Escrow analysis analyzes deposits and disbursements annually, and forecasts activity for the coming year**
- **For 365 interest loans, members may make multiple payments in the same month; CU*BASE will spread payments properly**
- **Complete 360-loan processing including ability for members to pay ahead (up to 9 periods)**
- **Ability for members to make a regular and a separate principal only payment at same time with interactive messaging for how a member wishes to apply payment (via both teller line and online banking)**
- **Escrow Analysis Statements are simple and easy for members to read, resulting in few calls to your credit union**
- **Complete 360-loan processing including ability for members to pay ahead (up to 9 periods)**
- **Ability for members to make a regular and a separate principal only payment at same time with interactive messaging for how a member wishes to apply payment (via both teller line and online banking)**
- **Escrow analysis statements are easy for members to read, resulting in few calls to your credit union**

Configure Dealer Info (Tool #245)

### Configure Dealer Information

- **This is the first of two screens used to set up dealer information, including name and address, contact information, and reserve percentages**
- **Each dealer is assigned a unique number for tracking purposes**

- **Configure Dealer Information**
- **Talking Points**
  - CU*BASE tracks every indirect dealer relationship. Ability to link dealers (retailers) to member accounts for tracking activity by dealer.
  - Will calculate applicable reserve and report reserves paid to dealing.
  - Includes Dealer Delinquency report for tracking paper being delivered for any dealer.
**Student Loan Deferment Maintenance**

**Student Loan Processing**

CU*BASE handles all processing/government reporting.

Not often found in traditional systems, CU*BASE includes a complete student loan processing system.

Calculated accrual are fully integrated with CU*BASE G/L
We have 2-3 clients for which Student Loans are significant portion of their portfolio.

**Package Loans to be Sold**

(Tool #574)

**Participation Lending**

The CU*BASE Participation Loan Tracking system allows credit unions to identify this very special group of loans and handle issues related to loan servicing, including interest calculations, repayment, delinquency, etc., and to facilitate communication between the credit union and its partner institution. Level of functionality not included with most systems (add-on module cost). Also used for settling with Freddie or Fannie for mortgages sold to the secondary market.

The new loan packaging feature allows management to consider if they would like to participate or sell a portion of their loan portfolio, and allows them to segment a portion of the loan portfolio for concentration risk analysis, including viewing servicing income and yield analysis.

**Credit Card “Grand Central Station”**

(Tool #12)

**Online Credit Card Servicing**

This new one-stop-shop for credit card maintenance allows the user to order a card, emboss, update rates, and more, all in one place.

Many CU benefits including 2,997 promotional programs, big $ savings (40-70%) with FIS, JHPS, OneBridge, or Vantiv; postage savings for combining statement mailings.

Members are linked much closer to CU; may review all transaction activity online; make payments from any delivery channel.

Skip a Payment options for allowing members to skip a monthly payment (interest still accrues) may be set anytime with no CU*Answers intervention.

**Credit Card Portfolio Dashboard**

(Tool #593)

**Online Credit Card Portfolio**

Gain a better understanding of your online credit cards with this dashboard.
This new one-stop-shop for credit card maintenance allows the user to order a card, emboss, update rates, and more, all in one place.

Get a quick glimpse of your credit card loan categories, the number of members with one, the number of cards issued, balances, rates, and more, for two periods shown side by side.

Drill down on a single category for rate detail, a comparative analysis, or a 12 month comparative analysis.

Export information for use with Member Connect or Common Bonds.

---

Lender*VP Website

**Topic Focus – Lender*VP**

Discuss relationship with Lender*VP as an arm of Management Services.

The Lender*VP team has years of on-the-street credit union lending experience, combined with an intimate knowledge of CU*BASE tools.

Services provided range from PayDay Lending, Consulting, and a variety of Loan Delivery Channels to ensure credit unions can remain competitive in the fast-paced lending environment.

We can make sure you know what products you need, get them off the ground quickly, and drive them to success.

---

Indirect Lending

**Retailer Direct**

*Capability to link w/a trusted business partner to electronically deliver loan applications from any retail location.*

*Opportunity to expand into new lending outlets (roofers, contractors, lawn sprinkler systems, funeral homes, doctors, etc.).*

*A strategic partnership between CU*A and CU for expanded lending success.*

---

Dealertrack
Online credit application network for new and used auto, RV and motorcycle dealers.

Allows the dealers to connect to the credit union, their rates and automated processing around the clock.

**RouteOne**

Recently developed interface between RouteOne and CU*BASE opens new possibilities to drive business to your loan queue.

Use RouteOne to partner with additional markets, such as the local car dealership that prefers this interface.

**Talk back to your dealers with two-way communication**

A new way to communicate with indirect lenders has arrived. Streamline your lending department and improve your conversation by conveniently communicating with dealers during the loan process. Check out the “Configuring Tools for Your Loan Team” booklet for more information: [https://www.cuanswers.com/pdf/cb_ref/LoanTeamTools.pdf](https://www.cuanswers.com/pdf/cb_ref/LoanTeamTools.pdf).

Web-based mortgage application/LOS guaranteeing 50-state compliance for forms.

Linked directly to CU*BASE loan app queue (Tool #2) to be worked by CU lending team; eliminates traditional re-keying of 3rd party systems.

Real-time member status for keeping members updated on what’s happening on mortgage loan. Capability for easily selling to secondary market.

**Experience and Management**

**Web-based mortgage application/LOS**

Guaranteeing 50-state compliance for forms.

Linked directly to CU*BASE loan app queue (Tool #2) to be worked by CU lending team; eliminates traditional re-keying of 3rd party systems.

Real-time member status for keeping members updated on what’s happening on mortgage loan. Capability for easily selling to secondary market.

**Lending Tune-Up**

Opportunity for Lender*VP to increase lending income, decrease expenses and maximize staff efficiency; Lender*VP team will analyze current product line and configurations for making recommendations to improve lending profitability/efficiency.

**Collections – 15 minutes**

**Work Collections (Tool #982)**

*This is the first of two screens used to inquire on and work with collections data*

- Work a Delinquent Acct.

**Collections Summary Inquiry**

**CU Delinquency Status**

*Instant summary inquiry of overall CU delinquency status*

- Collections summary as broken down by CU configurations; may review Classified Loan summary from same screen.

- Review total delinquency summary by several ways, including Delinquent Loans, Negative Balances, Overline Accts., or Written Off loans.

**Classified Loan Review (Tool #210)**

**Loan Classification Inquiry**

Talking Points

- Ability to work all member delinquency on a single screen (including credit cards); easily view last contact points and more Variety of sort functions for locating desired delinquent members.

- Includes overdrawn lines of credit, delinquent and written-off loans, and negative balance share accounts.

Talking Points

- Review total delinquency summary by several ways, including Delinquent Loans, Negative Balances, Overline Accts., or Written Off loans.
This screen shows a list of all loan accounts which have been flagged with a Loan Classification Code, as of the last time collections data was monitored (during either EOD or BOD depending on your CU's system configuration).

**Collections Dashboard (Tool #229)**

**Collections Dashboard**

**Summary**

Dashboard tracking system for comparing collections status – utilizing a variety of comparison data

Comparing periods of time (6 months ago) with each other

**Talking Points**

Ability to perform trend analysis for collections efforts sorted by Collector, Category, Dealers and more.

Ability to view an online summary of how many time each Memo Code has been recorded for a selected branch, collector, etc., for a period of time.

**Charge Off Checking (Tool #201)**

**Charge Off Savings/Checking**

Simple single screen process for charging off savings/checking

Writing Off a Loan

Quickly review an overdrawn savings/checking account.

Post the overdrawn balance to G/L and close the account all in one process.

**Write Off/Charge Off Loans (Tool #1006)**

**Loan Write-Off Process**

Reclassify underperforming loans while still maintaining the ability to collect or...

Automate the charge-off and account closing for uncollectible loans, including all related G/L entries

Simple step process for writing off a loan against the allowance reserve account, reclassifying it for repayment, while easily updating credit bureau codes.

Charge-off and close loans that are no longer collectible with ease.

Both processes take a snapshot of the loan status at time of write-off/charge-off for use in the Written Off Loan History Dashboard (Tool #476).

</table>
This screen appears when you enter a corporate ID, but no branch or G/L account number on the first Chart of Accounts Maintenance screen

Provides capability for managing of G/L chart of accounts

Complete inquiry to chart of accounts. Includes purposes and procedures explanations.

Variety of ways to update G/L accounts; Full branch level G/L features included.

G/L automatically linked to every CU*BASE module; codes for staff not having key G/L numbers.

---

Work with CU Budget

Recently rewritten from the ground up with the goal of making it a more robust tool for budgeting and performing analysis

Variance dashboard and accompanying reports lets you easily compare your plan vs. performance

Create budget groups critical to take advantage of the new variance analysis tools

New features added with 16.12 release

Talking Points

Internal budget system included linked to CU’s G/L system; Often a separate module for most 3rd party systems.

Multiple calculation methods, including a parallel calc type that annualizes and adjusts for seasonal difference.

Run multiple passes with different calc parameters to pop. your budget a little bit at a time; do what-if calcs without affecting your real, “finalized” budget.

Add budget notes to any GL in your budget. Store multiple budgets, either for comparing budgets that use different assumptions or for creating mid-year budget revisions.

---

Financial Report Config (Tool #376)
(Tool #360)

Financial Statement Configuration

Flexible spreadsheet tool intended to provide flexibility for crafting desired financial reports; allows spreadsheets to be designed to look nearly identical to existing sheets for assurance

Talking Points

May be easily customized to include new columns, totals, etc., (max of 7 printed columns – such as comparing this year, last year, last quarter, etc.).

CUs often have multiple configurations Balance Sheets, etc., for BOD’s lobby and financial reports.

---

End of Month Processing (Tool #360)

Talking Points

End Of Month Processing

End of Month Processing
Simple tool (ASP Clients) for closing of current month

Limited posting tasks for select journal entries and verifying of financial statements is all this is necessary prior to closing a month end.

Closing processes may be completed during first few days of following month; no requirement to close current month on last calendar day of month.

Smart Operator (Tool #822)

Daily Operations Log

Ability for CU staff to easily confirm various CU*BASE operations having been performed

A tool designed to demonstrate a leadership grasp and that various CU*BASE operations have been completed.

Helps accounting staff monitor daily vendor posting, such as drafts and returns, ATM and ACH postings.

Journal History Inquiry (Tool #60)

Basic G/L Inquiry

G/L journal entry history review

Comprehensive inquiry screen for providing a journal history inquiry by branch, G/L number and date parameters.

May view posted or un-posted batch journal entries.

Advanced G/L Inquiry

G/L Account Balance Summary

This screen appears when you use the Advanced G/L Inquiry button while working in Advanced G/L Inquiry. Use the Basic G/L Inquiry button to return to the initial G/L inquiry screen

This screen shows a net monthly balance of each G/L account, in order by G/L account number.

This inquiry format is similar to a printed financial statement.

Trial Balance G/L Verif. (Tool #877)

Verifying Daily G/L Activity

</tr>
</tbody>
</table>

Single tool for verifying member trial balances

Balance to corresponding G/Ls

Compare member balances with the G/L for all share, certificate, and loan products, as well as accruals for these products.

Comments are included for documenting offages.

It lets you easily verify that everything that happened in teller processing hit the G/L with the right location—comparing the teller system and the G/L by ending balance, as well as evaluating that the net change in the teller system matches the G/L interface by location.

Detailed listing of invoices open and paid; vendor rolodex listing.

Tool to easily select invoices desired for payment.

May select either via individual or batch of invoices to be paid via date ranges and more.
This is the first of several screens used to set up or view Vendor records and review payment history information.

Any staff may build invoices; build to pay on future date.

Ability to view outstanding invoices to same vendor on single screen.

Ability to build by branch to support branch level accounting.

Importing a File to Create Journal Entries & to Create a Budget
This added functionality allows credit unions to import a batch of transactions from an external source directly into CU*BASE to be used to create and post journal entries to the General Ledger or to create the credit union's budget.

Work With CU Investments (Tool #993)

<table>
<thead>
<tr>

**Management and Reporting Tools – 50 min**
### My CU Today

Understand your credit union better than ever before; put your credit union’s vitals at your fingertips with mycutoday.com

Configure alerts to identify sudden unexpected changes in credit union vital statistics.

View trends for over 70 different data points related to balances, members, transactions, cash, delinquency, and in-process data.

Give access to staff, board members, and even your examiners to increase transparency and improve the examination process.

### CU*BASE Employee Security (Tool #327)

CU*BASE employs a deep level of staff security including options to the feature and special security considerations level

Security maintained by tool and function level. Includes special security options for limiting inquiry/maintenance to staff accounts.

Variety of internal security reports provided for documenting staff modifications.

### Member Rate Maintenance (Tool #506)

This screen will appear when you enter a corporate ID into the Share Rate Update field on the first rate maintenance screen

Ability to update rates as desired including effective change date

Provides previous rate history options, marketing tips and procedures.

Base rate plus variance options for opening accts. via Online Banking, etc.

Using loan rates variances, make one base rate change and CU*BASE takes it from there for updating other related products.

### CU*BASE Rate Forecasting

Provides previous rate history options, marketing tips and procedures.

Base rate plus variance options for opening accts. via Online Banking, etc.

Using loan rates variances, make one base rate change and CU*BASE takes it from there for updating other related products.
CU*BASE provides a series of ALM style forecasting tools as based upon actual forecasting data

The Dividend/Interest Split Rate Forecasting tool is used to perform “what if” analysis, using actual member data

Array of “what if” calculation tools using live member data for forecasting various events.

Often takes hours and many different spreadsheet reports to calculate such data.

Works with current member (i.e. avg. daily balances per dividend period) versus outdated information.

---

**Where Your Members Borrow**

(Tool #976)

**Talking Points**

This system will not only tell you the member’s (or co-borrower’s) name, it will tell you the original amount they borrowed, estimate the rate, and give you contact info & credit scores as of the time the credit report was pulled.

This tool gathers trade line info from your credit union’s online credit bureau files CRBRPT and CRBSUM.

Where Your Members Borrow

**Where Your Members Borrow**

**Talking Points**

This tool allows you to summarize what your members and their co-borrowers are telling you through credit reports stored on the CU*BASE system.

**Check Processing Statistics**

(Tool #207)

**Talking Points**

A trending analysis tool providing insight on checking relationships and yields. Includes info from the Check Processing Status report - For any day, ability to instantly review member checks, corporate checks and overdraft transfer volume and $.

Check Processing Statistics

**Check Processing Statistics**

**Talking Points**

Provides big picture look at check processing statistics and related fee income

**Contingent Liability Analysis**

(Tool #281)

**Contingent Liability Trend Summary**

**Talking Points**

Nice to see if member usage for contingent liability is increasing, decreasing, etc.; Cross sales tool for aggressively targeting these members for using available $.

Built in call lists available for easily contacting these members.
Fee Income/Waiver/Refunds (Tool #369)

A centralized view to analyze your month-to-month member service fee income, along with data on the frequency of your opportunities to earn.

Fee Refunds/Waivers History by Employee (Tools #370 & 372)

Two dashboards that add to the Fee Waiver/Income analysis dashboard to give a better idea of what fees are being refunded and waived by employees.

Loan Concentration (Tool #460)

Summarizes and lists all members according to outstanding loan balance.

Fee Income/Waiver/Refunds Analysis

Ability to instantly determine fees being waived; includes variety of ways to display such as fee types, reasons for waiver, etc.

Refunds by Employee and Waiver History by Employee

Online dashboard inquiry displaying fee opportunity waivers (automated and staff initiated), fees charged and totals.

Fee Refunds/Waivers by Employee

Display by dollars and number of transactions.

Fee Refunds/Waivers History by Employee

Great tool for assisting management in determining if fees being waived match desired goals; great for helping determine potential future income strategies.

Research what fees are being refunded via account adjustment and by who, or what employees are waiving the most fees.

Loan Concentration Analysis

See investor-owned vs. credit union-owned portion of outstanding loans.

Quick access to credit score history for each member.

See refunds being posted by employees via account adjustments, including tools that let you isolate waivers being performed on insider accounts.

See a history of fee waivers by employee, including tools that let you isolate waivers being performed on insider accounts.
Concentration Risk by Loan Portfolio (Tool #592)

**Concentration Risk Analysis**

Assists in defending and managing lending practices, as well as staying informed about the concentration risk associated with different segments at the credit union.

**Talking Points**

Use a wide variety of filters to drill down results to your desire—almost any filter loan related!

Summarize results to find pertinent data, including the number of loans sixty days or more delinquent, the balance of those delinquent loans, and the delinquent balance as a percentage of the total portfolio value. Then drill down even further for a breakdown of the loans by credit score, number, balance, or percentage of net worth.

Loan/Share TB Review (Tool #478)

**Loan/Share Trial Balance**

Ability to compare the CU's financial statement at any two dates.

**Talking Points**

Nice mgt. tool for seeing how the CU is performing today as compared to previous points in time.

Nice BOD's tool for seeing how the CU is growing over period of time.

CU*BASE never deletes a CU's financials; thus able to compare previous points in time.

NSF Statistics Dashboard (Tool #557)

**NSF Analysis Summary**

Provides CEOs with a full picture of NSF/Courtesy Pay income for entire CU for a year.

Use this dashboard to understand trends in your NSF and Courtesy Pay (Automated Non-Return) income and how your members are generating income via these channels.

**Talking Points**

Provides CEOs the power to understand their BIG picture income and to identify members who are generating it.

Gives full transaction counts by month or by channel. Graphs show counts or income amounts.

<table>
<thead>
<tr>
<th>Channel Activity Summary (Tool #200)</th>
<th>Transaction Analysis Tools</th>
<th>Talking Points</th>
</tr>
</thead>
</table>
| This is the first of several screens used for working with CU*BASE Transaction Source Analysis inquiry and maintenance tools. Select delivery channels and show breakdown by age | Series of statistical data intended to show transaction activity; where members borrow, shop and branch. | Ability to review delivery channel usage, demographics including age groups, and much more. | Huge differentiator between CU*BASE and other systems; (fingertip research
Relationship Analysis (Tool #752)

**Relationship Analysis**

- View data broken down by age ranges and sex relating to the member or non-member selection.

**Talking Points**

- Relationship Analyses is a stand-alone screen, showing the total member and non-member data by age.
- This is the only place in CU*BASE to find the average age of your members, with a breakdown by gender.
- Provides credit unions more ways to analyze membership.

Sample Checking Account Activity (Tool #774)

**Sampling Tools**

- This tool compiles transaction history for members that had checking account activity for the previous month, and allows you to sort it by 13 different analysis methods, in ascending or descending order, then look at a sampling of random accounts at the top and bottom ends of the spectrum.

**Talking Points**

- Member sampling as based upon a variety of delivery channel criteria including member profitability analysis and more.
- Dozens of tools to access communities of members having similar behavior patterns.
- Ability to review clients using teller line, performing most ACH items, Online Banking usage and more. Includes early calculations of member profitability.
- Great tool for target marketing to select communities as based upon preferences and behavior.

Sample Transactions by Delivery Channel (Tool #775)

**Sampling Transaction Activity by Delivery Channel**

- Look at members who maximize delivery channels and sample those members to look for trends.

**Talking Points**

- Identify possible trends that can be used to improve member services, increase revenues, or lower expenses.
- The Filter flag lets you display only individual or organizational memberships.
Account/Member Retention by Age
(Tools #103 & 508)

Membership Analysis
Analyzing Retention & Age Groups
View a breakdown showing the ages of your members when they joined the credit union; You can compare several years next to each other, so you can see if the members joining in 1995 were really younger than the new members who are joining today.

Also includes info on member retention to analyze active members based on the year they joined; net loss; % member retention.

Account/Member Retention by Year Opened (Tools #104 & 509)

Member Retention
Analyze the credit union’s ability to attract and retain members
A powerful tool that allows the credit union to view the number of memberships or accounts opened in a year, and how many of those members remained at the credit union over a series of five years (or an interval you select).

Drill down further to see only memberships of a specific designation (such as indirect lending), a specific gender, or to view members of a specific age when they joined the credit union.

Patronage Comparison (Tool #582)

Compare Population Segments
Set up two population segments using a variety of parameters
Compare the two groups on their transaction activity for every delivery channel
Get a side-by-side analysis of the groups’ patronage
Detailed statistics at your fingertips. Create population segments and then review their transaction volume by delivery channel to see where the opportunities lie.

Get a quick snapshot of a group’s patronage (member balances).
**Losing the Love/Member Behavior Patterns (Tool #132)**

**Track and understand a member’s withdrawal from a relationship with the CU**

**Evaluate your closed memberships for key indicators that signify when your member started going elsewhere for financial services**

*Added with the 16.12 release*

**Analyze closed memberships based on a number of key factors including: gender, branch, member designation, tiered service level, age range, length of membership, and more.**

**Import closed membership to analyze or exclude. Export memberships for use in marketing campaigns.**

**Find patterns in changes in balance, tiered services, products used, services used, and net relationship status.**

---

**Credit Score History Analysis (Tool #319)**

**Create a segment of your entire credit report portfolio**

**Market to individuals based on their credit score trending**

**Analyze the segment for a big picture look at your portfolio**

**Select portfolio based on credit report date range, score range, % score change since last report, pull method, grade/level, or a specific bureau.**

**Quick access to inquiry, outstanding loan recap, credit history, and credit score graph for individual.**

**Analyze score trends for entire segment, and the number of reports converted to a loan.**

---

**Loan Payments Analysis (Tool #468)**

**Analyze payments received with payments expected for a given month**

**Identify members overpaying on their loans or who paid off the entire balance**

*Thanks to client feedback, this was reorganized with the 16.07 release to make it easier to analyze payments!*

**Find the variance in expected payments versus actual payments received for your loan portfolio.**

**Contact groups of individuals based on their payment activity (over payments, under payments, early payoffs, etc.).**

**Get a weekly breakdown to see when payments are made during the month.**
### Look-to-Book Ratio Analysis (Tool #484)

**Look-to-Book Analysis**

Analyze loan application data and the credit scores of your applicants to see how many loans are being approved, denied, and left pending in each range.

- **Talking Points**
  - Find out how long loans remain in a pending status or how long it took to book or be denied.
  - Filter results for a narrower look at your loan pipeline.
  - Dig deeper to find out how many members vs. non-members are applying in each credit score range; what is the high/low and average score of apps for mortgages; etc.

- **Added with the 16.10 release**

### Net Relationships Dashboard (Tool #547)

**Net Relationships Analysis**

Split up your membership based on their relationship with your credit union.

- **Talking Points**
  - Incredible level of depth gives you information on your membership from the highest level down to a very granular one.
  - Identify members with zero balances to market to them or get them off your books.
  - View patronage by month and by age, and balances by member age for the subset of members selected.

### Teller Activity Analysis (Tools #843-848)

**Teller Activity Analysis Tools**

Teller activity tracking by branch location including time of day and day of month.

- **Talking Points**
  - Excellent resource for determining member lobby trends.
  - Great tools for helping determine teller staffing levels and more
  - Another location for reviewing member Shared Branch Activity analysis.
  - Analysis tools for detailing teller activity by time of day, day of week and day of month.
**Cash Activity Analysis (Tool #185)**

**Cash Activity Analysis**

Ability to monitor cash movement (both in and out) for previous month and by individual branch

This screen displays Cash Analysis by Time of Day as of month end

**Talking Points**

Tool for verifying the activity of cash flowing in and out of CU & types of checks coming across the counter.

Great tool for assisting credit union in cash ordering.

May display by individual branch for tracking cash activity trends, volumes of checks being deposited (Check 21 investment requirements); avg check cash amount.

---

**Statement Reconciliation Dashboard (Tool #825)**

**Statement Recon**

Ability to reconcile statement activity in CU*BASE to your monthly invoice

Use it as an analytical tool to decide whether a new statement strategy is needed

**Talking Points**

Detailed account of statements, breaking down production to see how many members qualified, how many statements were suppressed, and more.

Trend activity over 8 statement periods at once.

Zoom in on a single period to see what styles were used and what inserts were included.

---

**Service Charge Configuration (Tool #810)**

**Cash Activity Analysis**

Redesigned fee configuration allows credit unions to easily design new service charges for revenue generation

More controls given to the credit union and auditing functions let management set up fees the way they want them to work

**Talking Points**

Updated configuration flow to make it easier to learn and more intuitive to work with.

New generic notice events created to allow you to notify members of fee postings.

Test configured fees to see how they’ll affect your membership before they go live.

New fee types allowed (annual fees, loan fees, wrong address, and more).

</tr>
</tbody>
</table>
Marketing Functions

Centralized location for Credit Union Marketing functions

A marketer’s dream screen for providing an array of Marketing analysis inquiry and report functions.

Work with Marketing Club Members

Variety of daily and monthly tracking options for determining member eligibility for benefits

Different than tiered service in that a member must join and possibly even pay dues. Ability to auto-enroll members meeting desired conditions.

CU*BASE will suspend and reactivate members daily/monthly as based upon tracked status

May offer fee waivers and Special Rate benefits (loans, CDs); display as a “benefit” transaction on statements for regular reinforcement of benefit provided.

Marketing Clubs offer a huge benefit to grouping members sharing a common bond to encourage participation through a set of rewards

Link Marketing Club participation to Tiered Service points earned.

Work with Member Survey Response

This is the first of two screens used to fill in a member’s responses to your CU*BASE Member Survey

Survey tools promote knowing your members better, creating stronger bonds for relationship building.

This screen shows all of the questions configured for the member survey, along with any responses already recorded for this member

Allows compiling a list of multiple-choice questions for member response; How satisfied are your members? What motivates your members?

Surveys may be completed via Online Banking option.

Use Tools #512-514 for configuration and results.
### Member Connect Marketing Tools (Tool #497)

**Member Communication**

This screen provides a single place to access several different CU*BASE marketing tools for communicating with your members.

**Talking points**

The advantage of Member Connect, aside from bringing everything together into one handy location, is that it allows you to create a single database file of member account numbers and email addresses, then use that same file to create online banking messages, mailing labels, selective statement inserts and telemarketing trackers.

### Tiered Svcs Monthly Comparison (Tool #856)

**Comparative Tiered Scoring Analysis**

Online Trend analysis tool for comparing member relationships and goal setting by product for select periods of time

Built in member contact lists for reaching out to these members and promoting new features available

**Talking Points**

Embedded trend analysis tool for helping determine product use and penetration over time—great for helping determine if marketing plan; product penetration strategies are working; need to be revised, etc.

Ability to compare the value of moving members up the food chain for participation (i.e. comparing base level member to platinum level for product and services usage).

### Targeted Tiered Score Analysis (Tool #840)

**Member Communication**

Similar to Tiered Services Monthly Comparison except it allows you to analyze the participation of a specific segment of your membership by Tiered Service scoring.

New goals added to Tiered Service configuration including eNotice, eAlert, and Mobile Text enrollment, valid email, and more

**Talking points**

Create a very specific segment of your membership to compare against entire database. How do they score differently?

Isolate a group by age, gender, credit score, branch, member designation, and much more. Drill down even further to compare by all five Tiered Services goals.

Isolate a subsection and then export for Member Connect marketing.
Audit and Compliance – 20 min

**5300 Call Report Tools (Category 5300)**

This screen is accessed via Tool #362.

**5300 Call Report Data**

**Talking Points**

**Several functions embedded within CU*BASE to automate quarterly 5300 Report**

Useful tool for CEOs to streamline cumbersome process.

**Critical edits used by NCUA will significantly reduce the most common errors people will find when using the upload function**

Includes various trending analysis tools.

**Ability to directly upload Call Report data to NCUA.**

**Auditing Functions (Category AUDITING)**

**Daily internal audit activities consolidated to a single screen**

Provides a single source for daily BSA, OFAC, FIDM, FinCEN, and Dormancy activity report tracking.

Excellent tool for instantly auditing processes performed by member or staff.

“Auto Tracker” tool that tracks member activities related to compliance (OFAC, FIDM, BSA, Dormancy); writes out a conversation note to member’s ongoing tracker.

**Enterprise Risk Management**

**Talking Points**

**Headquarters for the new CU*BASE Enterprise Risk Management system**

Six new Risk Management categories allowing credit unions to monitor the following areas of risk management: credit, interest rate, liquidity, concentration, transaction, and compliance.

Any credit union of any size can use these tools to develop a strategy for monitoring, managing, and controlling its risk, without the need to purchase ancillary systems.
