Introduction

CU*Answers is pleased to offer electronic bill presentment and payment service through a relationship with Fiserv. More than just a link to the leading provider of financial e-commerce products and services, bill payment via It's Me 247 – called EasyPay by Fiserv – lets members pay bills on line while still maintaining connectivity via Online Banking...making online bill payment a credit union service.

Your members can easily enroll on line and can perform a variety of services, including viewing bills electronically (from participating vendors), and approving payments in a matter of minutes.

To eliminate the worry of an invalid or non-existent account being selected, the enrollment process automatically provides a list of approved demand accounts from which payments can be made, keeping your credit union in control. Members can pay anyone—if the biller can’t receive electronic payments, Fiserv will issue a check drawn on the member’s account.

And with a consolidated log-on feature, CU*Answers passes your member directly from your credit union web site to Online Banking and Fiserv, so that your member only has to log on once!

This booklet describes the steps required in order for your credit union to begin offering EasyPay bill payment services to your members via It's Me 247 Online Banking. It also includes configuration instructions and daily
procedures involved in providing EasyPay bill payment services to your members.

The page below appears first when you click the “Pay My Bills” link in It’s Me 247 online banking. It acts as a centralized “Payment Center” that shows bills to pay, reminders, scheduled payments, and payment history all in one place.

Special Features

- **Account-to-Account (A2A)** – Similar to the CU*BASE feature for A2A, members can schedule and transfer funds between their credit union accounts and their accounts at other financial institutions through their bill pay processing. Recurring transfers with reminders are included.
  - See Page 6 for more information on A2A transaction limits as well as more details on A2A transfers.
- **Same Day Bill Payments** – Enables your member to schedule certain electronic payments to a large list of popular merchants across many different marketplaces. This convenient option is ready when the member needs to use it. This feature will display the associated fee for the member approval.
- **Overnight Checks** – Enables members to schedule certain paper payments to be delivered within one business day rather than the standard multi-business day window. This feature will display the associated fee for the member approval.
**Easy Enrollment through “It’s Me 247” or CU*BASE**

- Enrollment can be done by member through *It’s Me 247* or by a CU employee through CU*BASE (see Page 27)
- Members can choose one or two share draft/checking accounts to pay bills (no savings types); enrollment allowed only for members with active “SD” account
- Enrollments are communicated to Fiserv through daily batch transmission:
  - CU*Answers creates electronic file with all necessary details (CU subscriber number, member account number, password, etc)—no need for member to receive paperwork in order to activate; allows member to be enrolled and using the site much faster
  - Enrollment file created during EOD processing, transmitted as a batch on daily basis (approx. 8:30 a.m. EST Monday-Friday); enrollments received after EOD will be included in next transmission (e.g., on Monday for a Friday morning enrollment)
- Member access is guaranteed after 24-48 hour turnaround (from the time the file is received by Fiserv)
  - No notification is sent to members or CU
  - Status of enrollment (“Pending” or “Enrolled”) available in CU*BASE

**“Consolidated Logon” Makes EasyPay a Credit Union Product**

- The site is branded to use the EasyPay logo and name
- “Consolidated Logon” means member does not use a URL to go to Fiserv site—*It’s Me 247* passes all required account information direct to Fiserv so member does not need to “log on” manually
- *It’s Me 247* remains active (sitting on the Main Menu, using the timeout value assigned to that page); EasyPay opens in separate browser window
Fiserv PartnerCare for Resolving Member Questions

- CU*Answers Client Services can assist CU employees in handling member inquiries by using a Fiserv online support tool called “PartnerCare.”

NOTE: Only credit unions with a custom, individual Fiserv site can access PartnerCare for their own members. See Page 18 for details.

Optional Service Charges

- Available configurable service charge groups (see Page 22):
  - Monthly subscriber fees with age and aggregate balance waivers
  - Excessive activity fees
  - Fee for inactive users

- Tied to Tiered Services and Marketing Clubs for fee waivers based on member participation

Miscellaneous Features

- Secure; remains in encrypted state throughout member’s interaction with site

- Bill Presentment - Member can elect to receive bills from all merchants approved by Fiserv (no It’s Me 247/CU*Answers action necessary)

- Download transaction information to both Quicken and Microsoft Money via It’s Me 247

Note on Fiserv and Foreign Addresses

On our previous model for Fiserv (good funds) foreign addresses were supported. Now, however, when an enrollment is processed, Fiserv looks at the address, and if it is non-domestic, they will decline the enrollment. Why? On the current model, Fiserv is responsible for collection efforts, not the credit union. Therefore, they choose not to extend those efforts outside of the U.S. This may be an issue with some credit unions with members who live in Canada.

TOOLS FOR RISK MITIGATION

Regulatory Compliance

Fiserv, as our bill pay provider, complies with all regulatory requirements in regard to bill pay services, including, but not limited to, OFAC, ACH rules and regulations, and the FACT Act. For due diligence documents, contact the SettleMINT team.
Transaction Limits

Following are the transaction limits for Fiserv bill pay Cooperative site:

- Daily maximum bill pay limit of $25,000 to mitigate large single payments

Any payments between $10,000 and $25,000 will be processed as a paper draft to offer an additional layer of security.

- Daily maximum A2A transfer limit of $2,500 with a rolling seven-day maximum of $10,000

- Fiserv assumes all risk for A2A transfers and transfers are allowed in the United States only.

FraudNet Service

CU*Answers will provide additional bill pay protection for your members with FraudNet, a service that uses a sophisticated analytics engine to detect unauthorized payments before they are completed.

FraudNet is a centralized fraud detection and integrated case management system that scores each online bill payment and halts the processing of suspicious transactions until they have been reviewed by fraud specialists. The sophisticated FraudNet engine leverages advanced algorithms and proprietary negative file history, making it extremely accurate in detecting fraudulent transactions before they are processed.

When a suspicious transaction is identified, CU*Answers contacts the credit union to determine if it is of concern. At that time, the credit union can determine whether to release the payment or stop the payment based on their internal procedures.

Learn more in the FraudNet Alert guide.

Account-to-Account (A2A)

Members can transfer funds between their accounts at the credit union that provides their bill pay services. Members can also transfer funds to accounts held at other financial institutions. The ability to transfer from the other financial institution into the member’s credit union account is also present.

Each transfer has a transaction fee.

- NOTE: A2A transfers can process as a next day payment. There are times when this may not occur:

  - If a subscriber should exceed their transfer risk limit, a 3-day credit hold will be placed on the transfer.

  - A 5-day credit hold is placed on any inbound transfer coming from an unconfirmed account.

Account-to-Account transfers are reversible if the debit of an A2A transfer transaction returns as Insufficient (NSF) permanently. Fiserv will attempt two debits as we do with regular bill payments.
- NOTE: Daily and weekly transfer limits are visible when the member makes a transfer. This information will not appear until after the member schedules the first transfer.
**PAY BILLS – ON YOUR PHONE**

Members will appreciate the convenience of being able to pay their bills – right from their phone. Once your member is enrolled in EasyPay by Fiserv, your members can immediately begin using this feature and paying bills on their phone via Mobile Web Banking.

- NOTE: For enrollment and to access all the bill pay features, such as creating new payees, the member must access EasyPay Powered by iPay or EasyPay by Fiserv via the main *It’s Me 247* website.

This feature is automatically activated when Mobile Web Banking is activated at your credit union.

Following are standard feature for bill pay via Mobile Web Banking:

- Schedule a new payment
- Pay an e-Bill – if one is available
- Manage an existing (pending) payment
- View payment history
- View existing payees

To pay bills online, the member simply selects the first option on the Mobile Banking screen, “Make a Payment”. (See image above.)

- Easy Pay by Fiserv offers the members the opportunity to pay eBills on their phone. Members can elect to receive bills from all merchants via the full *It’s Me 247* bill pay site.

- EasyPay by Fiserv charges credit unions an additional flat monthly fee of $0.20 by Fiserv (per active member) for this service. Activity is defined as a member doing one of the following (using EasyPay by Fiserv in Mobile Web Banking): changing or adding a scheduled payment, adding or receiving an e-bill, or submitting a payment. This fee will be billed directly to the credit union with no process to automatically bill the member.
Examples of Bill Pay Screens and a Further Discussion of Features

Make a Payment (1)
Once a member selects “Make a Payment”, the member will be presented with one of the screens to the right.

- If a member does not have any payees configured, the member will receive a message telling them to go to the full site to set up payees.

Members will also be able to select to pay an eBill. (This eBill selection will only appear if an eBill is available for payment.)

Make a Payment (2)
After selecting a payee and the “Next” button, the member then enters the amount and date of the payment and the account the funds will be drawn from.
Manage a Pending Payment
If the member selects “Manage a Pending Payment,” the member will first select the pending payment to edit it.

- EasyPay by Fiserv displays payments scheduled for up to 90 days with a limit of 75 payments.

(This screen is accessed when a pending payment is selected from the previous screen.)
**View Payment History**
Selecting “Payment History” shows a detail of the Payments.

- EasyPay by Fiserv, payment history is 90 days with a limit of 75 payments.

**View Active Payees**
Selecting “Active Payees” shows a listing of payees the member has created.

- NOTE: New payees must be created while in the full It’s Me 247 website.
How Payments are Processed

An Historical Perspective

When EasyPay by Fiserv, formerly CU*EasyPay!, was first introduced in 2001, the prevailing wisdom said that the entire bill pay industry was moving toward good funds. This was going to be the standard. In other words, bill payers would not pay bills unless the financial institution and member had already debited the accounts for the pending bill.

Good funds had many benefits. The member had to immediately budget for the bill. The CU received the NSF income and was not surprised by a Fiserv return fee later in the process. Transactions were coded separately (Origin Code 20) and not through share draft or ACH processing, making it easy to track bill pay transactions independently. We could even incorporate bill pay activity into analysis tools like Where Your Members Shop and separate these transactions from regular share draft and ACH clearings for a more thorough analysis of the significance of bill pay in your members’ lives.

On the way to the future, things change. Good funds processing did not become the standard of the industry, and the member’s desire to benefit from the float (no matter how short) seems to have won. Now, items clear either as a regular ACH debit, or via a check cut on the member’s account (which means they will appear in the draft recon section of their statement, have check images available, etc., just like other checks).

How Payments Will Clear a Member’s Account

Payments will clear out of a member’s checking account in one of two ways: an incoming ACH debit, or a check drawn on the member’s account and presented through regular share draft processing.

What if the Member Has Insufficient Funds?

If a member has insufficient funds in their funding account(s) at the time of payment, negative balance (ANR) funds available to the member will also be used (as with normal ACH Debit or check processing). If the member is still deemed to have insufficient funds, the member will be handled according to the credit union’s policies (and will be charged any NSF fees that apply).

ACH Debits

In most cases, member bills will be paid via the ACH system. Items will come through the ACH system like any other debit, and normal ACH handling will apply, including your credit union’s configured NSF fees.

Following is an example of how these transactions would appear to a member in It’s Me 247:

<table>
<thead>
<tr>
<th>Date</th>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>11/24/2006</td>
<td>ACH/GAINES CHARTER T</td>
<td>($189.73)</td>
</tr>
<tr>
<td></td>
<td>ONLINE PMT</td>
<td></td>
</tr>
</tbody>
</table>

($4,297.80)

NOTE: If this payment was sent to the biller via a Fiserv corporate draft, the item looks the same to the member in It’s Me 247, but will show a longer
check number (not in the 5000 series) when viewing biller history in EasyPay
See Page 14 for more details on items that clear on the member’s account as
ACH, but are actually paid to the biller using a corporate draft.

**Checks Drawn on the Member’s Account**

Depending on the biller, the bill may instead be paid via a printed check
drawn on the member’s checking account, with the member’s MICR line
on the printed check, cleared through your normal share draft processing.
(These are sometimes referred to as “member drafts” or simply “drafts.”)

These items will be given a check number so that they will behave exactly
like the member’s other checks, and will appear in the draft recon section of
their statement. **Fiserv will issue these checks using a numbering
sequence starting with 5000.**

Following is an example of how the item would appear to a member in It’s
Me 247:

| 02/15/2007 | DRAFT 03856 | View Check | ($75.00) | $36,551.92 |

If check images are currently available to your members via online banking,
these will be included as well, and will appear similar to the sample shown
below. At the top of the check the company name will appear as “PAYMENT
PROCESSING CENTER.”

![Check Image]

When payments are processed as member checks made payable to a biller,
keep in mind that **the date on the check will always be the date that the
member scheduled the payment to be made.** This will not necessarily
match the date on which the item clears the member’s account. For
example:

A member schedules a payment to ABC Lawn Care with a Pay Date of
10/18/06.

Fiserv determines that payment will be made in the form of a member
check.
In order for the check to be received on the 18th, Fiserv produces the check on 10/13/06 (the Remit Date). The date on the physical check will be 10/18/06.

NOTE: If the biller happens to receive the payment early, it is possible the item might be deposited prior to the date on the check, although this is not typical.

The item would then clear the member’s account after it is deposited/cashed by the biller.

**UNDERSTANDING HOW PAYMENTS ARE PROCESSED**

When answering member inquiries about specific bill payments, it is helpful to understand a little bit about how Fiserv processes payments behind the scenes.

In a nutshell, while there are only two ways a payment can clear a member’s account, there are actually three different ways a biller (such as a utility company, mortgage lender, babysitter, etc.) can receive the payment: a member draft, and electronic ACH item, or a corporate draft issued by Fiserv.

As far as the member is concerned, however, no matter whether a payment is made via ACH or a Fiserv corporate draft, the item will look exactly the same when viewing their transaction history in *It’s Me 247*.

The only time the member might notice that a Fiserv corporate draft was used will be when viewing payment history detail in EasyPay, as in the following samples:
This item was paid to the biller as a member draft (note the 5xxx check number) and presented through share draft processing:

The following item was paid as a corporate draft (notice the check number) and presented to the member as an ACH debit:

How does Fiserv determine what payment method will be used?

The following explanation was provided by Fiserv:

"Fiserv evaluates payment direction based on a proprietary algorithm that takes into account many factors. Some evaluation is done at the sponsor level, some at the merchant level, and some at the subscriber level. Sponsor level information determines what check types are acceptable – draft only or draft and corporate. Merchant level information determines the preferred payment method for that payee (electronic or paper) and if the merchant assumes responsibility for
returns. Subscriber level information such as claims and payment history also factor into the decision.

“Each payment request is evaluated individually and may change each time a payment processes. That’s why, in some cases, payments made by the same subscriber to the same merchant may result in different payment methods. The only true difference between these remittance methods is the timing of the debit. For corporate checks, the debit occurs on the date the payment is due, regardless of when the payment posts at the merchant. For draft payments, the debit occurs on the date the merchant posts the funds to the subscriber’s account. Regardless of the payment method, funds will not be withdrawn from your account prior to the due date the subscriber schedules.”

The bottom line is that there is no way to know in advance how a payment will be processed, but as far as the member is concerned, it really doesn’t matter. The payment will be processed so that the payment will be made to the biller on the date the member designated.

**Why corporate checks?**

*The following explanation was provided by Fiserv:*

“We use corporate checks for a couple of reasons. The majority of our customers like corporate checks because the timing of the debit is consistent with the date the customer schedules for delivery of the payment. With drafts, we are dependent on the US Mail which means the timing of the debit is not 100% guaranteed. Also, customers tend to like corporate checks because the merchant name is posted on their bank statement. With drafts, the subscriber gets a check number and amount but no merchant name.”

**COLLECTIONS PROCEDURE**

Because funds are withdrawn from member accounts via ACH debits or a member check, the Fiserv Bill Pay Support team will be responsible for handling any collections issues that arise, similar to any other type of ACH items where an outside company (utility, insurance company, etc.) directly debits a member’s account. The credit union will generally not be involved other than to assist Fiserv representatives in verifying funds availability, if appropriate.

If an ACH debit is returned due to insufficient funds, Fiserv will send a letter to the member notifying them that another attempt will be made, and will present the item one more time.

If the item is returned again, additional collections letters will be mailed at regular intervals while Fiserv attempts to contact the subscriber (the member) and work out a method for payment. (For example, the member might be asked to send a check directly to Fiserv or deposit funds into his account as of a promised date). All letters will direct the member to contact Fiserv Bill Pay Support directly, not the credit union.

*See Appendix B on Page 32 for a sampling of the collections letters Fiserv will be sending to members with NSF items.*

After a period of 60-63 days, if the funds have still not been received, Fiserv will turn the case over to an outside collections agency for further action.

In most cases, Fiserv will place a freeze on the member’s access to EasyPay while the unpaid funds are collected or while another issue (such as a closed
account or frozen account balance) is being resolved. This type of freeze WILL stop any pending payments already scheduled from being paid.

If a member complains that he or she cannot access EasyPay from online banking, it may be that Fiserv is attempting to resolve a collections issue.

Checks drawn on the member’s account will be handled the same as any other member check that is returned NSF. Obviously your credit union’s ODP and ANR/Courtesy Pay policies will be important in helping members avoid returned items.

Special Note: For credit unions that begin offering bill pay after October 1, 2006, Fiserv support representatives will contact CU*Answers first. Our Client Service Rep. will pass the inquiry on to the appropriate credit union representative based on the subscriber ID.
## HARDWARE AND NETWORK REQUIREMENTS

### FOR YOUR MEMBERS...

### CheckFree® RXP® Browser and Assistive Technology Policy

April 2014

### Effective with Feature Pack 10 Launch

<table>

- **Freedom Scientific JAWS**

### Notes

1. **JavaScript** is required for the application to function optimally. If not enabled, certain functions will not work properly.

2. **Cookies**: The browser must be set to allow cookies and/or explicitly allow 3rd party cookies for CheckFree RXP to function.

3. **Screen resolution**: 800 x 600 VGA or higher

4. **Windows Display Properties Settings**: should be 96 dpi (Windows default).

5. **Browser Text Size should be Medium**

6. **Internet Explorer 9 and 10**: CheckFree RXP has been written to render in Standards mode for IE 9 and 10.

Remember that to access **It's Me 247**, the browser must run at 128-bit encryption. (To check your encryption level, from the Help menu, choose Help About... and look for a cipher strength or “high-grade security” notation indicating 128-bit strength.)

As security requirements and the Internet world change, so will these requirements. If a member is having trouble accessing EasyPay or **It’s Me 247** features, try recommending a browser software upgrade.
MARKETING SERVICES

CU*Answers is pleased to make available the use of the names and logos for EasyPay for your marketing campaigns. This represents a significant savings for you since all of the artwork has already been created and you can take advantage of the many marketing materials that have already been developed.

MARKETING MATERIALS

For marketing materials, including posters, brochures and inserts go to http://marketing.cuanswers.com/materials.php.

Examples of the marketing brochure, poster and insert are on the following page.
SO MANY BENEFITS... EASY TO SET UP

- Easy to setup. Follow simple steps and click instructions.
- You can pay any bill electronically.
- Make payments or see your account from your e-mail account.
- Receive a payment summary report with the current payment to
  the account number and text.
- Schedule payments in your
collection. Some bills can even receive monthly payments.
- Avoids lefts with your credit card or bank account.
- Use additional options or preauthorized debits with your account.
- Use a payment summary report to see the status of your payments.
- Use the Payment Calendar to schedule reminders on your payments.
- EasyPay is safe and secure.

RECEIVE YOUR BILLS ONLINE

One of the many benefits of EasyPay is
the ability to receive and electronically
pay your bills. Some bills are still being
paid, but the if it is growing every day.
It's easy. Monthly visits from a
paper company is unmanageable. Simply
click on the 'Add a Bill' button next to the
title name. Then follow the simple instructions for each bill.

OTHER AVAILABLE FEATURES

- Helps your payments date with
  preauthorized debits.
- Purchases gift cards.
- Acc. Account in account service.
- Overnight checks.
- Same-day payment.
- Non-reachable
  personal transfers.
- Inquiries

ONLINE BILL PAYMENT AND PRESENTMENT

SIMPLIFY YOUR LIFE
GAIN FINANCIAL CONTROL
SAVE TIME FOR THINGS THAT MATTER MOST

POINT-CLICK-PAY... IT'S THAT EASY!

ABCDECU.com

A safe and easy way to pay your bills online!
GETTING STARTED: STEP BY STEP

Cooperative Model

A lead time of approximately two weeks will be required for preparation and to help ensure a successful product roll-out. Following is the blueprint for getting started:

1. Assign an internal Project Manager responsible for this project.

2. Sign the Electronic Commerce Service Agreement (requires a 3-year commitment) and return to CU*Answers Client Services.

3. Work with a CU*Answers Client Service Representative to complete the Data Gathering Form.

4. Upon completion of the Data Gathering Form and signed Service Agreement, a CU*BASE Client Service Representative will contact you regarding an implementation start-up date and to set up a staff education training session. Implementation and training dates will be assigned on a first-come, first-served basis.

5. A CSR will work with you to set up your service charge structure and all other CU*BASE configuration settings that need to be completed.

6. Carefully review applicable Terms and Conditions related to Reg. E and the timing for posting transactions to member accounts. CU*Answers will review this information with you as well.

7. You are ready to release EasyPay. A Client Service Representative will assist by “turning on the switch” at your assigned implementation date.

Implementing a New Custom Site

Contact a Client Service Representative for a customized timetable if you are interested in establishing a custom site for your credit union members.

Generally, the lead time for a custom site is 90-120 days prior to roll-out. This includes a comprehensive testing and certification process with a focus group of employees and selected members.
## Configuring EasyPay Service Charge Codes

**“EasyPay Service Charge Cnfg” on the Internet Member Services Config (MNCNFE) menu**

### Screen 1

<table>
<thead>
<tr>
<th>Bill Payment Waiver Method</th>
<th>Access of Waiver Screen</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tiered Services Scoring</td>
<td><strong>Tiered Service Level Config</strong> on the General Configuration 2 (MNCNFD) menu, then <strong>Assign Tiered Service Level Rewards</strong>—Bill payment/presentment service charge code</td>
</tr>
<tr>
<td>Marketing Clubs Rewards</td>
<td><strong>Marketing Club Configuration</strong> on the General Configuration 2 (MNCNFD) menu, then <strong>Fees and Waivers</strong>/ (Periodic Service Charge Exemptions)—Assign bill payment/presentment service charge code</td>
</tr>
</tbody>
</table>

Notice that you can set up as many different service charge groups as needed, each with their own set of parameters and prices. Service charge codes are assigned at the time of enrollment, and can be changed either manually at any time, or may be changed as part of automated processes such as Tiered Service scoring or Marketing Club rewards.

Enter a 2-digit code or select an existing one in the list and use Enter or Select to proceed to the next screen.

**NOTE:** Remember that members who enroll via **It’s Me 247** are automatically assigned service charge code 01. Therefore, that code should always be set up with your standard fee parameters.
Screen 2

This screen is used to configure the fee parameters for this service charge code. This code can then be assigned to a member upon enrollment. You will need to choose the General Ledger account(s) to which you would like to post enrollment fees, monthly subscriber fees, and excessive activity fees.

When done, press Enter to save and return to the previous screen.

For field descriptions and other details, please refer to CU*BASE GOLD Online Help by clicking [i] while working in these screens.

What causes a member to be considered “active?”

We receive a file from Fiserv the beginning of each month for the previous month’s activity. The date in the file we receive is the date that the member requested as the payment date. This means a member must schedule a payment with a due date in the month in order to be considered active for that month. Because of this, there will be instances when you can see activity in the member’s history for a specific month, but yet they are reported as inactive. For example:

A member schedules a payment for November 1.

Fiserv determines the payment will be processed as a member draft, and therefore cuts the check on October 27 to give it time to get to the biller on November 1.

The biller receives the payment early, and is able to deposit it (even though the check is dated 11/1), and it clears the member’s account on October 31.
In this situation, the member would appear to have transaction activity during October, but if no payments were scheduled with an October date, the member would be considered inactive for the month of October.
“Learn from a Peer” to Compare with Other Credit Unions

Wondering how other credit unions configure their bill pay configuration? “Learn from a Peer” is designed to help you do just that - compare your credit union settings with the settings or fee configurations of other credit unions, including the ability to view and compare bill pay configurations.

- NOTE: When you use this feature, you will only be able to view configurations of other credit unions in your system (the server where your files reside).

Access the fee configuration via Bill Pay Service Charges on the Learn from a Peer (MNMGMB) menu. First you will view a view-only version of your own credit union’s bill pay configuration. From this screen select Learn from a Peer (F10). (This is only available when the screen is accessed via the Learn from a Peer menu). On the following screen select the member range or asset size of the comparison credit union (defaults to a range ten percent larger and smaller than your credit union). A list of credit unions within this range is then presented so you can select and view the Self Service fee configuration of the selected credit union.
CONFIGURING THE ENROLLMENT
“MARKETING” MESSAGE

This message must be configured before you begin allowing your members to enroll for bill payment via It’s Me 247.

“EasyPay Marketing Message” on the Internet Member Services (MNCNFE) menu

This credit union-defined message appears when a member clicks “Pay My Bills,” if he or she is not already enrolled to pay bills via EasyPay. It can contain a marketing statement, information about credit union fees, and warnings about how to schedule payments in advance of when they are due.

For field descriptions and other details, please refer to CU^BASE GOLD Online Help by clicking the information (i) button while working in these screens.
ENROLLING MEMBERS IN EASYPAY

ENROLLING VIA “IT’S ME 247”

Members can enroll to pay bills with EasyPay themselves, using “Pay & Transfer” in It’s Me 247. Below is a sample of the page that will be displayed if the member has not already been enrolled:

Once the member selects “Enroll in Bill Pay,” the member will advance to the enrollment screen.

Notice that your configured enrollment message is displayed in the box at the top of the screen.
Members can enroll in EasyPay through It’s Me 247 as long as the credit union’s PIB configuration allows this access. See the “PIB Configuration and User Guide” for more details.

**ENROLLING VIA CU*BASE**

Credit union staff member can also enroll a member using CU*BASE. When tellers and member service personnel are talking with members about your credit union’s bill payment services, this option makes it easy to enroll the member “on the spot.” You can even set up your workflow controls (Workflow Controls: Open Mbrs Accounts on the General configuration 1 (MNCNFC) menu) to display the enrollment screen automatically when opening a new membership.

“Member Personal Banker” on the Member Service (MNSERV) menu, then “Bill Payment (enroll or change enrollment status)

![Enrollment Screen](image)

**NOTE:** A member must have a valid email account to enroll in EasyPay.

Use the *Action* field to enroll this member for EasyPay, then press Enter to record the change. All enrollments submitted during the day, whether via It’s Me 247 or this enrollment feature in CU*BASE, are gathered together and transmitted to Fiserv each weekday morning. (Enrollments made on Friday, Saturday and Sunday will be transmitted Monday morning.)

Approval will be returned 24-48 hours after the request is received by Fiserv. Although no notification will be sent directly to the member, the *Enrollment Status* flag shown on this screen will change from “Pending” to “Enrolled” once approval has been received, and the member can then begin using EasyPay.

**Special Note: Changing Bill Payment Account Numbers**

This screen can also be used if the member simply wants to change the accounts from which bills can be paid. Just use the *Checking Account 1* and *Checking Account 2* fields to designate the desired share draft accounts and press Enter. A change notice will be sent the following morning to Fiserv.
may take a day or two before the new accounts appear on the EasyPay site so that they can be selected for paying a bill.

Be sure NOT to access the PartnerCare site and change the accounts there without also changing them here, to keep everything in synch.

For field descriptions and other details, please refer to 
CU*BASE GOLD Online Help by clicking 🧵 while working in these screens.

**UNENROLLMENT**

Members who wish to stop using EasyPay must be un-enrolled using the CU*BASE enrollment feature described on the previous page.
EASYPAY REPORTS

DAILY ENROLLMENT REPORTS

These automated daily reports show enrollment and un-enrollment activity by members. They are stored in CU*SPY under theElectronic/Third Party Processing category.

Active/Inactive Report (LEPPAYMT)

This report lists the members who enrolled or un-enrolled in EasyPay.

Enrollment Listing (PEPPSIS)

CU*TIP: If you see a section on this report listing “rejected” enrollments, one reason may be that the member is shown as being in Collections from another Fiserv source (such as if the member signed up for bill pay through Yahoo or some other vendor).

CU*TIP: Be sure that for business names, words are separated by a single space with no characters

CU*TIP: If a member receives a consolidated login error message, contact a Client Services Representative.

Enrollment Exceptions (PEPPSIS1)
MONTHLY FEE REPORTS

These reports are produced each month (will generally be between the 5th and 15th of the month, depending on when the activity data is received from Fiserv). They show your configured EasyPay service charges that were charged to member accounts.

The exception report shows any fees that could not be charged due to insufficient funds or account closings. This report should be reviewed and those members who have not had activity for a number of months should be notified and un-enrolled. Both reports are stored in CU*SPY under the Member Services category.

RE: CUEasyPay Service Account Number: XXXXX2356

We are writing regarding the transactions listed below. We have tried again to withdraw the funds for the transactions from your account. Unfortunately, the transactions listed were returned.

Please note that the credits to the listed payees or billers were reversed when these transactions were returned from your financial institution. Consequently, you may have multiple entries appearing on your payee or biller account statement and payment is still due to the listed payees or billers.

Any payment service fees associated with the returned transactions will be withdrawn from your account in accordance with your payment service terms and conditions; any other standard processing fees may still apply.

RE: CUNIEasyPay Service Account Number: XXXXX2348

We are writing regarding the transactions listed below. Unfortunately, when we tried to withdraw the funds for the transactions from your account, the items were returned by your financial institution.

As a result, your payment service account has been suspended effective July 28, 2006, and you cannot use the service until it is reactivated. Consequently, we cannot process any scheduled payments, and you are responsible for making those payments by using an alternate method, such as mailing a check to the payer or biller.

Please note that the credits to the listed payees or billers were reversed when those transactions were returned from your financial institution. Consequently, you may have multiple entries appearing on your payee or biller account statement and payment is still due to the listed payees or billers.

Any payment service fees associated with the returned transactions will be withdrawn from your account in accordance with your payment service terms and conditions; any other standard processing fees may still apply.

Our Payment Processing Center is now handling this matter. Please call 800-840-1337 to discuss reactivation of your bill payment service.

Pursuant to the Fair Debt Collection Practices Act, we are required to inform you that this letter is an attempt to collect on a debt and any information obtained will be used for that purpose.

APPENDIX B: PAYMENT PROCESSING

CUT-OFF TIMES

The term cut-off refers to the deadline by which payments must be scheduled in order to begin processing on the current processing day.

Payments scheduled after the cut-off time cannot begin processing until the next processing date.

EasyPay cut-off times are:

**Standard cut-off time:** 1:00 pm EST (Web 4.0, PFM, Fiserv Web 3.x, or Fiserv Web for Small Business)

**Extended cut-off time:** 5:00 pm EST (Web 4.1 and later)

**NOTE:** The extended cut-off time is available with Fiserv Web 4.1 and later. It is new functionality for CSAPI and SIS

With next day payments, the cut-off time might be as late at 7:00 pm EST, depending on the biller’s processing capabilities.

**Important:** With SIS, 5:00 pm EST is the cut-off time by which Fiserv must have received and processed the Sponsors SIS files. The Sponsor works with Fiserv during implementation to coordinate the time frames in which to send the files to meet the 5:00 pm EST cut-off time.

PAYMENT CHANGES AND CANCELLATIONS

Fiserv must receive payment changes (if applicable) or cancellations before the payment begins processing.

See below for cut off times to change and/or cancel payments:

**Same day payments:**
- Fiserv Web 4.0: payments must be changed/cancelled by the Standard cut-off time of 1:00 pm EST
- Fiserv Web 4.1 and later: payments must be changed/cancelled by the Extended cut-off time of 5:00 pm EST

**Next day payments:**
- Fiserv Web 4.0: payments must be changed/cancelled by the Standard cut-off time of 1:00 pm EST
- Fiserv Web 4.1 and later, CSAPI and SIS: payments must be changed/cancelled by the Extended cut-off time of 5:00 pm EST

**NOTE:** The cut-off time varies based on the biller’s processing capabilities

**Important:** With SIS, 5:00 pm EST is the cut-off time by which Fiserv must have received and processed the Sponsors SIS files. The Sponsor works with Fiserv during implementation to coordinate the time frames in which to send the files to meet the 5:00 pm EST cut-off time.

**Standard Lead time:**
- Fiserv Web 4.0, SIS, PFM, Fiserv Web 3.x, Fiserv Web for Small Business: payments must be changed/cancelled by the Standard cut-off time of 1:00 pm EST
- Fiserv Web 4.1 and later, CSAPI and SIS: payments must be changed/cancelled by the Extended cut-off time of 5:00pm EST.
**Important:** With SIS, 5:00 pm EST is the cut-off time by which Fiserv must have received and processed the Sponsors SIS files. The Sponsor works with Fiserv during implementation to coordinate the time frames in which to send the files to meet the 5:00 pm EST cut-off time.
APPENDIX C: GETTING STARTED
MATERIALS

- EasyPay Setup Form*
- Schedule P - Electronic Commerce Service Agreement with Exhibit A Pricing Schedule**
- Member Identification and Monitoring Form

*Please fill out and return Setup Form to SettleMINT EFT at settleminteft@cuanswers.com.

**Please fill out and return Schedule P to Scott Page at spage@cuanswers.com
Credit Union Name: _____________________________________________  CU#: ______________

**Setup Authorization**

☐ Yes, our credit union would like to proceed with implementing EasyPay Powered by Fiserv bill pay services for our membership. Following is contact information for the person designated as the EasyPay product manager at our credit union:

Contact name: ______________________________________________________________________

Contact phone #: ____________________________________________________________________

**Checklist**

SettleMINT EFT will assist you with the following tasks to ensure that you are ready to roll out EasyPay to your members. We suggest you keep a copy of this document and use it as a checklist as you work through the steps together.

- Configure Service Charges
- Set up Marketing Messages and plan for marketing materials for members
- Schedule EasyPay training for your support staff

Fax the completed form with your signed copy of the “Electronic Commerce Service Agreement” to:

CU*Answers  
Attn: SettleMINT EFT  
Fax # 616-285-5735

The SettleMINT EFT department will contact you to schedule time to review the configuration and set up an implementation timeline. If you need to contact the SettleMINT EFT team directly, email settleminteft@cuanswers.com or call 616-285-5711 x 309.
SCHEDULE P
ELECTRONIC COMMERCE SERVICE AGREEMENT

This Schedule is in addition to the Services Agreement and is subject to the trade secret and confidentiality, warranty and limitation of liability and other terms contained in the Services Agreement. All terms and conditions in the Service Exhibit apply to this Schedule.

1. Services Provided

CU*Answers, Inc. agrees to make available an electronic commerce system for Client and to provide Client with the electronic commerce services (“Services”) for elective use by Client’s depositors and account holders (“Users”) pursuant to the terms of this Schedule, its Exhibits and the Procedures and Customer Services appendices.

CU*Answers, Inc. has entered into an Agreement with Fiserv Solutions, Inc. (together with its affiliates "Fiserv") which authorizes CU*Answers, Inc. to market and deliver certain Fiserv products and services.

2. Term of Schedule

This Schedule shall be effective as of _______________ (“Effective Date”) and shall remain in force for a period of three (3) years (“Initial Term”); and shall automatically renew and extend for successive one (1) year terms, commencing at the conclusion of the Initial Term or any renewal term, unless contrary notice in writing is given by Client or CU*Answers, Inc. at least ninety (90) days prior to termination of the then current term. Upon termination, the obligations of a continuing nature shall continue to be binding and in full force and effect. If, upon termination under this paragraph or under paragraph 4.5 Client has chosen to continue to offer a like service without CU*Answers, Inc. as the provider, Client will pay all mutually agreed upon expenses incurred by CU*Answers, Inc. to make the conversion. Notwithstanding anything to the contrary contained in this Schedule, if the Agreement between CU*Answers, Inc. and Fiserv Solutions, Inc. pursuant to which CU*Answers, Inc. is able to provide the Services as provided for by this Schedule shall expire or terminate for any reason whatsoever, this Schedule shall terminate and shall be deemed to have mutually terminated one (1) day prior to the expiration or termination of CU*Answers, Inc’s Agreement with Fiserv Solutions, Inc.

3. Forms

All forms and other documents required for the proper utilization of the Services shall be provided by Client at its expense. All such forms and documents shall be consistent with those that CU*Answers, Inc. uses in providing such Services to its other clients. CU*Answers, Inc. shall have the right to review and approve for technical accuracy all such forms and documents prior to their use and at its request shall assist Client in the preparation thereof. CU*Answers, Inc. shall be reimbursed by Client for the reasonable cost of time and materials for any such assistance that shall be calculated in accordance with the System Support Charges specified in Exhibit A attached hereto, payable thirty (30) days after receipt of the invoice therefor.
4. Charges

4.1 For the Services utilized, Client shall pay to CU*Answers, Inc. monthly the total of the applicable charges incurred during the preceding month in accordance with Exhibit A.

4.2 CU*Answers, Inc. may adjust the fees referenced in Exhibit A at any time upon 60 day written notice to the Client.

4.3 There shall be added to all invoices for the Services amounts equal to any applicable sales or other taxes levied, based on, arising from or in any way connected with the furnishing of the Services to Client or Users hereunder, exclusive of taxes based on CU*Answers, Inc. net income.

4.4 All invoices for the Services rendered hereunder shall be due and payable consistent with CU*Answers, Inc. normal billing cycle. If Client fails to pay any such amounts when due, CU*Answers, Inc. may, at its option, and after giving at least ten (10) days prior written notice, discontinue furnishing the Services unless and until all such arrearages are paid in full, all without impairment of any other remedy that may be available to CU*Answers, Inc. Client shall furnish to Users at its expense all notices of such termination that may be required by law or by CU*Answers, Inc.

4.5 Client recognizes that CU*Answers, Inc. level of personnel staffing, computer equipment selections, hardware resource allocations, hardware and software lease term selections, equipment and software purchases, and general resource planning so as to fulfill its contractual obligations are based upon the assumption that this Schedule will remain in effect for its full Initial Term and any renewal term and that any prior termination hereof will result in substantial damages to CU*Answers, Inc. At the same time, however, CU*Answers, Inc. recognizes that it is in the substantial interest of Client to have the right to terminate this Schedule, other than as provided in paragraph 2 herein, should it so desire. Client, therefore, is hereby granted the right at its option to terminate this Schedule at any time after the first twelve (12) months by giving ninety (90) days prior written notice of termination, and by the payment to CU*Answers, Inc. of an amount in cash that shall be the product resulting from multiplying the number of months remaining in the Schedule’s Initial Term or renewal term on the date of termination by either the average of the fees for the six (6) months with the highest total invoice amounts or the monthly premium, if applicable, whichever is greater, it being agreed that such sum constitutes reasonable liquidated damages to be sustained by CU*Answers, Inc. by reason of such early termination. If there have not been six (6) months of fees in the current term, the calculation shall be based on the number of months for which fees have been billed in the current term plus the relevant number of months from the previous term which makes the total six (6).

4.6 Notwithstanding any provisions to the contrary in this Schedule, in the event that the United States Postal Service raises its postage rates, CU*Answers, Inc. may, without prior notice to Client, increase its fees commensurately. Such increase in postal charges shall become effective coincident with the effective date of the United States Postal Service increase in such charges.

5. Reliance on Information Provided
CU*Answers, Inc. shall rely on the accuracy of all information provided to CU*Answers, Inc. by Client. Client shall promptly inform CU*Answers, Inc. of any such incorrect data or information, bear the cost of correction and pay any damages arising therefrom.

6. Availability of the Services

CU*Answers, Inc. will make available the Services seven (7) days per week, twenty-four (24) hours per day, except for scheduled or emergency maintenance requirements.

7. Use of the Services

Client and Users shall use the Services in accordance with CU*Answers, Inc. rules as may be established from time to time. Such rules shall be set forth in documentation materials furnished by CU*Answers, Inc. to Client. CU*Answers, Inc. agrees to give Client at least thirty (30) days advance written notice of any change in the rules.

8. Modifications in the Services

8.1 If any modification to the Services shall be required by law or by governmental regulation, CU*Answers, Inc. and Client shall use their best efforts to comply. Client shall pay for any increase in CU*Answers, Inc. costs and charges therefore, but if it affects other clients of CU*Answers, Inc., such costs and charges shall be shared equitably by all affected CU*Answers, Inc. clients.

8.2 Subject to the provisions of paragraph 8.1 hereinabove, without prior notice to Client, CU*Answers, Inc. at its expense may make any modifications, changes, adjustments or enhancements to the Services that it considers to be suitable.

9. Use of Service Marks, Trademarks, Logos, etc.

9.1 Client shall have no right to any copyrighted material, logos, trade names, trademarks or service marks used by CU*Answers, Inc. or third parties in connection with the Services.

9.2 Upon request Client shall submit all advertising and promotional materials used in connection with the operation of the Services to CU*Answers, Inc. for technical review and prior approval. A response shall be given in a timely manner and approval shall not be unreasonably withheld.

9.3 Client (i) is responsible for registering and maintaining the registration of Client’s Internet address; (ii) will maintain editorial control over and be solely responsible for maintaining Client’s web site and, if applicable, providing access through it to the CheckFree RXP Subsite, and; (iii) is solely responsible for regulatory compliance of its web site and its functionalities with all relevant federal, state and local laws, rules and regulations.

10. Communications Lines and Equipment
10.1 CU*Answers, Inc. shall not be responsible for the reliability or continued availability of telephone lines and other communications equipment used by Client or Users in accessing the Services.

11. **File Security, Retention and Transfer at Time of Termination**

11.1 CU*Answers, Inc. shall provide reasonable security measures to ensure that access to Client’s computerized files and records are available only to CU*Answers, Inc. and CU*Answers, Inc. agents, contractors or affiliates, and to Client and Client’s Users. CU*Answers, Inc. reserves the right to issue and change procedures from time to time to improve or protect file security.

11.2 At the time this Schedule is terminated, if Client is not then in default of any provisions herein, Client shall be entitled to receive from CU*Answers, Inc. records or lists equivalent in content to CU*Answers, Inc. standards Authorized Vendor/Payee List for each of Client’s Users on CU*Answers, Inc’s file. All such records and lists shall be in a form agreeable to both CU*Answers, Inc. and Client. Client shall bear the cost of all programming and processing that may be necessary to render the information usable to the Client.

11.3 Client agrees that data gathered from confirmed cases will be utilized within the Fraudnet system to detect fraud for other financial institution clients. Client grants Fiserv permission to use such data within Fraudnet to further the prevention of fraud; however, no proprietary consumer information is shared or viewable by other Fraudnet clients.

12. **Government Regulation and Compliance with Laws and Regulations**

12.1 Each party shall, as the case may be: (i) be responsible for compliance with all applicable laws, rules, and regulations (including, without limitation, Regulation E of the Board of Governors of the Federal Reserve System (“Regulation E”), the Electronic Fund Transfer Act and the rules of any applicable national or regional Automated Clearinghouse Association; (ii) establish, maintain, and be responsible for error resolution procedures required by Regulation E and the Electronic Funds Transfer Act; and (iii) be responsible for delivering to the Users and required disclosures and/or any provisional credits in connection with the error resolution procedure that may be required by Regulation E and the Electronic funds Transfer Act. The parties will cooperate with one another in the investigation and resolution of any alleged errors.

12.2 Client shall provide all required notices and disclosures to the appropriate regulatory authorities and to affected Users concerning the initiation or termination of this Schedule or of Services, or of any substantial changes in the Services being provided to Client or Users. CU*Answers, Inc. agrees that any and all Users’ data maintained by it for Client shall be available for inspection by the appropriate regulatory authorities and Client’s internal auditors and independent public accounts, upon reasonable prior written notice to CU*Answers, Inc.

12.3 Client agrees to pay CU*Answers, Inc. for all costs incurred in the preparation of data for inspection, examination or audit (pursuant to paragraph 12.2) at CU*Answers, Inc’s standard rates then in effect.
12.4 Client shall be solely responsible for the preparation and deliver to its Users of the monthly activity statements that will display the Services and the transactions that have been performed for Users.

12.5 Client agrees to (a) comply with applicable laws, rules, and regulations governing electronic funds transfers, including providing regulatory notices and disclosures to Users and complying with error resolution procedures required by law; (b) require Users to follow Fiserv’s standard operating procedures and terms and conditions with respect to use of the Services as described by Fiserv from time to time; and (c) provide to Fiserv, during the term of this Schedule and at no cost to Fiserv, at least one Client account for use with the Services for testing purposes.

12.6 Client represents and warrants that it has taken and will continue to take whatever action may be necessary to comply with all applicable laws, rules, statutes and regulations, including, but not limited to, the USA Patriot Act, the federal Bank Secrecy Act, federal and state laws and regulations relating to currency reporting and the prevention of money laundering and any rule or regulation issued by a regulatory body, including the U.S. Office of Foreign Assets Control, to enable it to offer and provide Account-to-Account Transfer Service (“A2A”) to its Users, and to otherwise allow Users to make use of A2A, including, but not limited to, any necessary consents from and notices to its Users. Client agrees to prepare and file any necessary compliance forms or reports, including without limitation, suspicious activity reports or currency transaction reports required to be filed in accordance with laws applicable to Client. Client shall immediately notify Fiserv and CU*Answers, Inc. of instances of suspected fraud, money laundering, terrorist financing, or other illegal activities determined within Client's reasonable discretion and involving A2A.

13. Client’s Agreement With Users

13.1 Client shall be solely responsible pursuant to Regulation E for ensuring that Users receive adequate disclosure of the terms and conditions governing their use of the Services and for error resolution procedures.

13.2 Client shall include the following notice, or its equivalent, in Agreements with Users and in Client’s promotional material for the Services: “Depositors should allow at least five (5) business days from the date payment is scheduled for such payments to be delivered to payees.” “Business days” as used in this Agreement shall mean Monday through Friday of each week exclusive of Saturday, Sunday and bank holidays.

13.3 Client shall be responsible for notifying Users of all applicable rules and procedures (and changes therein) to be observed in connection with the furnishing of the Services by CU*Answers, Inc.

13.4 Client's Agreements with Users will require Users to assume full responsibility and liability for all fund transfers initiated by any person to whom the User has intentionally or unintentionally disclosed their account information, password or other authenticating information. Client's Agreement with Users will require Users to notify the Client immediately if the Users' password
or other authenticating information has been lost, stolen or compromised or if the User discovers that their statement contains payments or transfers that the User did not make or authorize.

13.5 Client agrees that its terms and conditions for A2A and other Services with its Users are between Client and its Users, not Fiserv or CU*Answers, Inc. Client will include in its terms and conditions for A2A and other Services any terms or conditions required by Fiserv or CU*Answers, Inc. and will not modify such terms and conditions without the prior written approval of Fiserv and CU*Answers, Inc.

14. Warranty and Limitation of Liability

14.1 If Client uses a risk override feature to permit its Users to override the Fiserv and/or CU*Answers, Inc. risk processing rules for a User and assign a modified risk limit for that user above the Fiserv default limit specified on the Fiserv system, then Client acknowledges and agrees that it is financially responsible for and guarantees the full dollar amount of transactions that such User transacts through all impacted Fiserv Services within the risk limits selected by Client or its User, without any financial contribution from Fiserv or CU*Answers, and agrees to fund Fiserv the full amount of transactions up to the modified risk limit regardless of the availability of funds in such User's account. Notwithstanding the foregoing, if the risk override feature has been invoked by Client for a User for at least one transaction type, but a risk limit has not been specified by Client or its User for other transaction type(s), then Client will still be financially responsible for the full amount of all transactions of all types, up to the default risk limit established by Fiserv’s and/or CU*Answers, Inc.'s risk processing rules regardless of the availability of funds in such User’s account.

15. General

15.1 CU*Answers is authorized to provide the Services only within the United States of America. Clients agree not to use the Services outside of the United States of America.

16 A2A

The following terms take effect only when the Account-to-Account Transfer Service (A2A) are made available and used by the Client:

16.1 Client will comply with the following minimum security levels: (a) a commercially reasonable security technology, and (b) encryption standards that provide a level of security that, at a minimum, is equivalent to 128-bit encryption technology prior to the End User’s key entry of any banking information, including but not limited to, the End User’s financial institution routing number, account number, and password or PIN number or other identification symbol.

16.2 If Client accesses an online database (e.g., Fiserv’s Compass database or any replacement or additional database as Fiserv may implement) containing End User information (e.g., name and bank name), Client may access that database only: (a) to effect, administer, or enforce a transfer made via the Services; (b) to protect against or prevent actual or potential fraud, unauthorized transactions, claims, or other liability related to the Services, as applicable; (c) for internal audit
and regulatory examination purposes; or (d) to resolve consumer disputes or inquiries involving a
transaction. Client shall protect the database from security breaches by establishing, maintaining
and updating commercially reasonable policies, procedures, equipment and software that will
safeguard the security and integrity of the Client’s computer and other such systems used to access
the database.

16.3 For any Services that involve authentication, Client agrees that: (a) third party data is
obtained from databases whose accuracy, timelines and coverage are not guaranteed; (b) the data
used to verify an End User is obtained from third parties; (c) Fiserv does not warrant or guarantee
the identity of the End User, (d) Fiserv may rely on any instructions or guidance provided by
Client, itself or in connection with information Fiserv obtains from its third party providers, in
connection with authenticating an End User, and (e) Client is solely responsible for establishing
the business rules and guidance it determines are necessary to address authentication, including
without limitation allowing Fiserv to provide Client with a score which is derived, in part, from
information entered by the End User.

16.4 Rules. Each Client shall establish and provide Reseller with that Client’s processing and
risk rules which will be used to perform Reseller’s obligations (“Rules”), and such Rules must
conform to Reseller’s supplier’s Global Risk Administration (GRA) model. In regards to the
Rules, Reseller is acting as an agent of Client and shall not be held responsible for any outcome or
decision that is rendered in accordance with the Rules. Reseller and its suppliers are authorized to
rely on data provided by third parties and are not responsible for the accuracy of such data in
connection with its performance of the Services, including without limitation application of the
Rules. Client further acknowledges and agrees that: (a) third party data is obtained from databases
whose accuracy, timelines and coverage are not guaranteed; (b) the data used to verify an End User
is obtained from third parties; (c) Reseller and its suppliers do not warrant or guarantee the identity
of the End User, but merely provides the applicable Client with a score (“Score”) which is derived,
in part, from information entered by the End User; (d) Reseller and its suppliers will use the Score
together with the applicable Client’s Rules to attempt to verify the identity of the End User; and
(e) the Score and related verification and authentication Services will be only used for the purpose
of verifying the identity of the End User and will not be used, in whole or in part, as a basis for
determining the eligibility of an End User for credit, insurance or employment or to take ‘adverse
action,’ as defined in the Fair Credit Reporting Act or similar laws. Client will not copy or retain
any authentication questions or the End Users’ answers to such questions or use such questions for
purposes other than identity verification and End User authentication, except (i) as required by law
or and (ii) that Client shall be permitted to use and retain the pass/fail indication returned by the
Services along with any related explanatory information/codes for risk management or other
internal purposes permitted by law. Client will not reverse engineer or create derivative works
based on the identity verification and authentication elements of the Services (or the technology
used to provide such Services). Client acknowledges and agrees that Reseller and its third party
providers described above recommend that Client use a manual verification process if a Score does
not meet or exceed the threshold for a positive verification, as defined solely by Client, or if Client
receives a flag (indicating a possible match) from a fraud detection database.

16.5 End User License and Consent. Client hereby consents to Reseller’s disclosure of the
End User Data to certain Reseller supplier(s) solely in connection with the verification and
authentication of the End Users and subject to the terms and conditions of this Schedule. Client acknowledges that such verification and authentication services are proprietary and confidential and shall be treated as confidential information of Reseller under the Schedule. Client grants to Reseller and Reseller’s applicable supplier(s) a non-exclusive, non-transferable, except as provided herein, right to use, copy, store, modify and display the End User data solely to the extent necessary to provide the Services pursuant to this Schedule. Client represents that it has obtained all necessary End User Schedules or consents as may be reasonably required to grant such license rights to Reseller and its suppliers.

16.6 Equifax Disclaimer. Client recognizes that every business decision represents an assumption of risk and that Equifax, in furnishing information through Reseller from its eIDVerifier service (the “Authentication Services”), does not underwrite or assume any client’s risk in any manner. EXCEPT AS OTHERWISE EXPRESSLY PROVIDED IN THIS SCHEDULE, OR ANY AMENDMENT, EQUIFAX DOES NOT GUARANTEE OR WARRANT THE CORRECTNESS, COMPLETENESS, CURRENTNESS, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE AUTHENTICATION SERVICES PROVIDED TO ANY CLIENT. NEITHER EQUIFAX, NOR ANY OF ITS DIRECTORS, OFFICERS, AGENTS, EMPLOYEES, CONTRACTORS, LICENSORS, AFFILIATED COMPANIES OR AFFILIATED CREDIT BUREAUS (“AFFILIATED PERSONS AND ENTITIES”) WILL BE LIABLE TO CLIENT FOR ANY LOSS OR INJURY ARISING OUT OF, OR CAUSED IN WHOLE OR IN PART BY, ITS ACTS OR OMISSIONS, EVEN IF NEGLIGENT, IN PROCURING, COMPILING, COLLECTING, INTERPRETING, PROCESSING, REPORTING OR TRANSMITTING ANY INFORMATION, OR THE AUTHENTICATION SERVICES. Client recognizes that accessing the Authentication Services with additional or different identification information on a consumer, or with the same information at a different time from a prior request for information, may result in file content different from that on the date of the original access.

16.7 Equifax Terms of Use. The terms and conditions for using the web site at which Client will offer the Authentication Services shall include the following terms and conditions or, if the web site terms and conditions are updated, other language that is materially identical to the following:

No Warranty. The information and materials contained in this site, including text, graphics, links or other items are provided "as is" and "as available". Client does not warrant the accuracy, adequacy or completeness of this information and materials, and expressly disclaims liability for errors or omissions in this information and materials. No warranty of any kind, implied, expressed or statutory, including but not limited to the warranties of non-infringement of third party rights, title, merchantability, fitness for a particular purpose and freedom from computer virus, is given in conjunction with the information and materials.

Limitation of Liability. In no event will Client be liable for any damages, including without limitation direct or indirect, special, incidental, or consequential damages, losses or expenses arising in connection with this site or any linked site or use thereof or inability to use by any party, or in connection with any failure of performance, error, omission, interruption, defect, delay in operation or transmission, computer virus or line or system
failure, even if Client, or representatives thereof, are advised of the possibility of such damages, losses or expenses.
In addition to the foregoing, Client shall include a notice in the account application process that incorporates the Authentication Services, reasonably acceptable to Client and Equifax, that alerts an applicant that credit report information is utilized in the course of verifying his or her identity.

16.8 Compliance with Law.

Client certifies with respect to any Authentication Service that Client will obtain such Services for the purpose of verifying the identity of an End User, and not to determine the User’s eligibility for credit, insurance, employment or any other product or service, and that Client will not use such Service, for any other purpose.

At its own expense, Client will comply with all applicable laws and regulations regarding the use and receipt of the Authentication Services. Client acknowledges and agrees that if it receives the eIDverifierTM Batch report or any information therein, it will comply in all respects with the requirements of a user of consumer reports under the Fair Credit Reporting Act (the "FCRA") including, but not limited to, providing the User with an adverse action notice as described in Section 615(a) of the FCRA in appropriate circumstances.

16.9 Client acknowledges that Equifax recommends that it provide a manual verification process in the event the User does not receive a score above the scoring threshold as defined by Client or if Client receives a flag (indicating a possible match) from a fraud detection database.

16.10 Confidential Information. Notwithstanding anything in the Schedule to the contrary, as to the information exchanged between the parties relating to Equifax’s identity verification and authentication Services, the parties' confidentiality obligations under the Schedule will continue indefinitely for so long as the applicable Information is a trade secret under applicable law and will continue with regard to the information which does not rise to the level of a trade secret for the earlier to occur of (y) the information no longer qualifies as Information, or (z) two (2) years following the termination of the Schedule.

Each party acknowledges that breach of the confidentiality obligations of the Schedule, as to the confidential information exchanged between the parties relating to Equifax’s identity verification and authentication Services could cause irreparable harm to the other party for which monetary damages may be difficult to ascertain or an inadequate remedy. Each party therefore agrees that the disclosing party may, in addition to any other rights and remedies, seek injunctive relief for any threatened of actual violation or breach of such Section.

17. Statues of Limitation

17.1 Nothing in this Schedule shall be deemed to limit the applicability of any otherwise applicable statutes of limitation or repose and any waivers contained in this Schedule.
18. Notices

Service of all notices under this Schedule shall be in writing and sent by U.S. Certified Mail, return receipt requested, postage paid, addressed to the party to be served notice at the following address:

November 30, 2012

**Member Identification and Monitoring Procedures**

The FACT Act has placed increased pressure upon financial institutions to update their member due diligence in an effort to reduce the occurrence of member identity theft. The Act has required all financial institutions to update and improve policies and procedures regarding the methodology used when verifying that you are actually conducting business with a real member. The regulators described these member actions as “Red Flags” and have adopted specific guidelines the credit union must create which monitors for them.

We here at CU*Answers speak with your members directly regarding EasyPay inquiries, and are asking that you review the following proposed procedures for authenticating members during those interactions. We are hoping that these procedures will track very closely with your new procedures moving forward. We have spoken with multiple credit unions and the following procedures represent the ones most frequently used by those institutions.

CU*Answers will be adding additional functionality for the “Privacy 2010” project. When these enhancements go in we will then follow the procedures you configure into the system. In the meantime, we are asking that you review our recommended procedures for member authentication and sign off that these procedures will meet your red flag requirements.

**Activity Requiring Written Procedures**

When a member calls directly into the call center to speak with a EasyPay Partner Care Specialist regarding a bill payment, we will begin by verifying the member’s identity. Once we have asked the member for their account number we will follow the listed procedures in the order they are presented. As you can see the last four digits of then member’s social security number are not asked. It is widely known that if a member’s identity was stolen the social security number is almost always compromised as well.

- If present, we will ask for the code word found in the member record. If answered correctly we will complete the member request.
- If the code word is not present we will ask for the mother’s maiden name. If answered correctly we will complete the member request.
- If the mother’s maiden name is not present we will ask what other account types the member has with the credit union. If it is only the regular share account we will skip to the next
- Ask the member if they have a payroll, ACH, or electronic activity coming in or out of their account and verify against inquiry. If answered correctly we will perform the transactions.
- If we cannot identify the member through any of the above methodologies we will ask the member to come into the credit union.
Special Attention:

Once the transaction is completed our call center representatives will ask the member to set up a special code word, if none exists, to be used moving forward to expedite their next experience. A tracker record will be set up and assigned back to the credit union for the credit union to update the member record. This tracker record will use a Memo Type of CW (code word) and must be reviewed by your staff. Please provide the staff member who will be responsible for this update below.

________________________________________

If the member does not know their account number we will only use the social security number verification to find the account. We will continue to ask the series of questions above for further validation.

Please provide the staff member who will be responsible for this update below.
