

CU*ANSWERS

CU*Answers Check Processing Goes National!

CU*Answers recently upgraded to an Electronic Check Processing environment. By having eliminated the transport of paper checks, this means for the first time, CU*Answers is able to provide image check processing services to any credit union nationally!

What's the Point?

This potentially means significant \$\$\$ savings for your credit union, and additional member/operations benefits.

- ✓ Our check processing fees remain amongst the lowest.
- ✓ Our base return fee is **decreasing by 30% - 50%** (*volume based*) effective 10-01-09.
- ✓ CU*Answers ensures a "single processing/support point" provided by our experienced CU*Check team.
- ✓ Check images are automatically linked to **It's Me 247** online banking, eliminating any custom programming requirements.
- ✓ Check images are always provided **free** to CU*BASE clients.

What are other Benefits?

- ✓ Elimination of third party vendor fees for accessing check images, creation of CD-ROMs, etc.
- ✓ Full integration with CU*BASE; all daily transmissions received and posted to member accounts.
- ✓ Returns and adjustments transmitted daily; elimination of FRB fees for processing returns.
- ✓ Includes duplicate item detect for checks processed during previous 30-days; eliminates frustrating errors.
- ✓ For non-CU*BASE clients, the interface to your present DP provider is fully tested and certified - making a conversion to CU*Check a very simple process.

Don't miss out on our ability to now serve any credit union!
