CU*BASE® Monthly Monitor Recap

February 2014

Your credit union is part of the CU*Answers collaborative network, your network. Even during the File Expansion Project (FEP), we remain responsive to your needs and continue to implement a significant amount of programming each month. The CU*BASE Monthly Monitor Recap is designed to keep you informed in an ongoing basis of feature improvements, vendor enhancements, and other miscellaneous changes to CU*BASE and our other core software products.

This specific Monthly Monitor Recap covers programming changes implemented during the month of February.

To learn more about all projects in the pipeline, refer to the Monitor website at
http://monitor.cuanswers.com/

Enhancements Due to Regulatory Changes

- Updated the variable rate change notices per Reg Z
- Added new processing codes for the Shazam Fall 2013 Mandate

Internal Enhancements

- Eliminated occasional error in monthly automated report run
- Added reasonableness checking in automated report run to make sure programs are able to run.
- Add ability to send IRS reports to inhouse eDoc servers
- Add ability to use alpha numeric CU IDs for the custom posting field
- Created a monthly report from the new iShield to show current users that are authorized to perform uploads/downloads of data from IBMi.
- Updated description of URLs for WebACD Xtend Web Chat on ItsMe247, due to a change in security token Handoff to WebEx

Miscellaneous

- Updated member's application comments to appear with the correct date in MNLOAN, #8 when loan applications are done through Home Banking
- Eliminated the post mode error in the new patronage dividend post program
- Changed Mail Direct Post to use logic to add leading zeros to make a 12 digit account number & verify valid in MNSERV, #2
- Updated mortgage statements to show correct "next payment date" for closed mortgage accounts when ran for the first time.
