## **Attention Online Credit Unions:**

### **Let Us Help You Design Your Member Documents!**

*Have you been thinking of new ways your credit union could use the configurable laser print features CU\*BASE has to offer, but find you just don't have the time? Learning the configurations, laying out the text, lining things up, and testing everything can be time-consuming.*

*Let the CU\*Answers Client Service Staff help!*

*Just send us the text you want to use (via an e-mail, in a word processing file, or even on a printed document) and we will do the rest!*

*For \$25 per layout, we'll take your ideas\* and turn them into products that can help you become more efficient and save you the cost of re-printing forms when the text changes.*
