#### Introduction

## CU\*Answers Delivers its Financial Clout to Assisting De Novo Efforts

As industry peers and partners, we must determine cooperative ways to assist new, start-up credit union ventures, and help facilitate their early efforts. As a cooperative CUSO, CU\*Answers believes this philosophy is a core principal to which each of us must commit ourselves, especially if we hope to see our industry numbers and overall viability to potential members grow, and turn the tide of steadily shrinking numbers. After all, each of us has a significant, vested interest in motivating our industry to achieve greater success. CU\*Answers has crafted a unique program that is specifically targeted for new, start-up credit unions. This plan is aggressive, and delivers a strong message to the industry that CU\*Answers is financially committed to assisting every de novo effort, by providing free data processing services for an initial 2-year period. In addition to sending a strong message, CU\*Answers is openly challenging other industry vendors to "step up to the plate" and design a similar plan for financially assisting these start-up ventures.

This Starting a Credit Union With CU\*Answers document is intended to provide sample (only) pricing for potential startup credit unions, in order to better understand the deep level of financial participation by CU\*Answers. While this document is not intended to list every product and service for which CU\*Answers provides within its CU\*BASE processing suite (see CU\*Answers Pricing Guides), it should help to provide an overview of the potential value of this program. Final pricing will be determined as per each credit union's specific requirements.

Simply put, the Starting a Credit Union Program is to cover core data processing services at no charge for a two-year period. It does not cover every CU\*Answers available service, or product, or out-of-pocket third party fees such as data lines, equipment, postage or required custom programming which will be determined on a case-by-case basis.

### Starting A Credit Union With CU\*Answers Cost Summary (Sample)

This is a preliminary pricing model for starting a credit union with CU\*Answers, as based upon the terms and conditions of the program. Final pricing will be provided pending a detailed client survey and proposal presented. Pricing is subject to periodic change without notice.

| Conversion and Training   | Standard Price        | Startup CU<br>Cost    | Years 3-4 | Year 5 |
|---|-----------------------|-----------------------|-----------|--------|
| <ul> <li>Conversion Programming to Core CU*BASE System</li> <li>Includes CU*BASE license fee</li> <li>Standard conversion of data from core processing system only</li> <li>Does not include any applicable deconversion fees from current processor or third party vendors</li> </ul>  | \$1.00 per member     | CUSO Funded           | n/a       | n/a    |
| <ul> <li>Incorporates standard CU*BASE history retention; more optionally available</li> </ul>  |                       |                       |           |        |
| <ul> <li>CU*BASE Project Planning, Training/Systems Assistance</li> <li>Estimate; actual cost will be based on actual T&amp;E cost incurred</li> <li>Includes CU*BASE training assistance of staff at Main Office location only</li> <li>Additional CU*Answers branch support may be provided for an additional charge</li> </ul>                             | Client responsibility | Client responsibility | n/a       | n/a    |
| <ul> <li>CU*BASE Conversion Support</li> <li>Several training and support packages to choose from as best suited for your staff</li> </ul>  | Client responsibility | Client responsibility | n/a       | n/a    |
| Hardware and Systems  |                       |                       |           |        |

#### CU\*BASE Initial Startup/Monthly Recurring Costs - Other Notes

Prices shown are estimates and a final proposal will be developed.

Prices shown do not include miscellaneous costs such as paper, supplies, certain mailing costs and optional services offered by CU\*Answers.

Total monthly costs are contingent upon final configuration/services implemented by the credit union.

Client responsible for all third party vendor fees.

\*Actual discount prices based upon then-current CU\*Answers Pricing Guides.
