

Product:	Version #:	To be released to:	On date:
CU*BASE® GOLD	19.12	Online CUs	Dec 15, 2019
		Site-Four	Dec 15, 2019
		Self-Processors	Dec 15, 2019

Running Your Custom Queries

If a file listed below is included in any of your custom reports or inquiries, you must refresh the Query definition **or your Query MAY NO LONGER RUN:**

1. In **Tool #100 CU*BASE Report Builder (Query)**, choose 2=Change and enter your Query name, then use Enter to proceed
2. Select **Choose Files**
3. Use Enter → to move through these screens until you're back to the Report Builder - Main Menu
4. Use **Exit** ↑
5. Select **Save query definition** and Run **Interactively** then use Enter →

NOTE: If the field changes from a numeric to an alpha-numeric field, you will need to add 'single quotes' around the Selection Criteria.

Updating Your Automated Queries

If you ever remove or add a file to a Query definition of a Query that you have automated, your Query **MAY NO LONGER RUN** unless you also **update the Query automation configuration** as follows:

1. Select **Tool #758 Report Automation – Custom Rpts/Files**
2. Select the Query and use Edit
3. Make the necessary changes and use Add/Update (F5) to save

NOTE: You do not need to do this if all you do is tweak a selection parameter such as modifying a date.

When a database table (file) is expanded or reformatted as part of a development project, what kinds of adjustments might need to be made on my custom Queries that use that table in the definition?

NEW DATABASE TABLES

For details on the formats and available values for specific table columns, refer to **Tool #332 Database Search Assistant**.

Table	Description	Purpose
	No new database tables this release.	

CHANGED DATABASE TABLES

For details on the formats and available values for specific table columns, refer to **Tool #332 Database Search Assistant**.

Table	Description	Changes Made
	Description updates only - no format changes this release.	

END
