

# Speaking of data...

Our next major file expansion: M-Up

- “Membership Data Update” for MASTER related files/fields
  - Where FEP was about accounts, M-Up is about *people*
  - Where FEP was about balances and transaction amounts, M-Up is about what we know about members, and managing their relationship with your CU
- Will be much more visible to credit unions and members than FEP
  - Will be using what we learned from FEP and adding new technologies that should help reduce the pain of the transition
- Project timeline:
  - Nov 2014 – Introduce at CEO Strategies
  - Feb 2015 – Publish final plan for what is included and how we will get it done (current staff, contract labor, etc.)
  - April 2015 – Start the work
- Follow along next year in the Kitchen
