

## Discussion topic for Wednesday night's CEO networking session

*Consider these questions while you network with your peer CEOs on Wednesday evening:*

- How many of you saw this movie?  
I think it's wonderful imagery for what the CU industry faces today
- You are the leaders of our industry and network
  - Because local is where all big things start
  - You face the project of what to take to the future
- Your ark is a business plan – what do you plan to take to the future?  
When will you pack?
