Imaging Solutions Software Release

Beta	Online	In-House
04/10/2022	5/15/2022	5/15/2022

What is this release?

This release is the Imaging Solutions release for online, enhanced online, and in-house release managed clients. Some features do not apply to all three types of clients. Refer to the symbols within the document for details.

How do I get this release?

 **In-House Managed Clients:** Imaging Solutions will be contacting you to schedule the update of your system for this release starting May 15th, 2022.

Have an in-house imaging server, but are not a Release Managed client? Sign up for Release Management today and we will waive the fee for the first year! Other options are also available. Contact Imaging Solutions for details at imaging@cuanswers.com.

 **Enhanced Online/Online Clients:** Imaging Solutions will deploy your release on May 15th, 2022. Any added features can be purchased in the store at store.cuanswers.com.

- Security Features 3
 -    Updates to MySQL and PHP 3
- Software Versions 4

Color Photo IDs for Enhanced Online Clients

Enhanced Online Clients can now scan photo IDs in color. This was previously limited to In-house Imaging clients only. However, times have changed, and internet speeds have increased to the point where we believe correctly scanned color photo IDs will auto-pop quickly. To keep images loading quickly in and out of CU*BASE, please remind your staff when scanning color photo IDs to use proper scanning settings of color, 150 dpi, and business card size.

To help credit unions introduce proper scanning settings to their staff, we have created a new document called "Scanner Settings – Color Photo IDs". It can be downloaded from <https://www.cuanswers.com/wp-content/uploads/Color-Photo-ID-Scanner-Settings.pdf>. This document gives examples of different scanners in our network and our recommended settings.

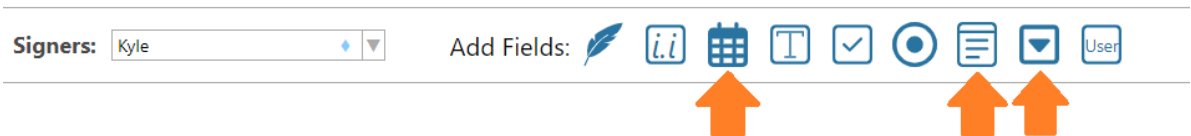

eDOCSignature

Now Add a Date Picker, Memo Box, and Drop-down lists to eDOCSignature documents

With this update, adding signature elements to forms sent out for electronic signature through the eDOCSignature website just got a whole lot more powerful. Now users can have signers select a date on a form, pick from a drop-down list, and write a few sentences if needed. Please take note, these new features can be found when uploading a document or setting up a template in the eDOCSignature website.

Security Features

Updates to MySQL and PHP
Important security updates for MySQL and PHP.

Software Versions

Below are the versions currently in use with this release:

Product	New Version
2020DOC	7.16.0.6
AutoImportCon	7.15.0.0
ConState	7.16.0.1
DFCViewer	7.16.0.0
Document Server	7.17.0.1
EsignDoc	7.16.0.0
Imaging API	1.4.10
IntelliSweep	7.17.0.2
IntelliSweepAdmin.exe	7.17.0.2
ISAPI/Gateway	7.14.0.0
ISAPI/Web Portal	7.15.0.1
iSweep.exe	7.15.0.0
iSweepAdmin.exe	7.15.0.0
Job Management Service	1.1.0.16
