## Notes for This Release

All projects will be available immediately. Your credit union will not need to implement any.

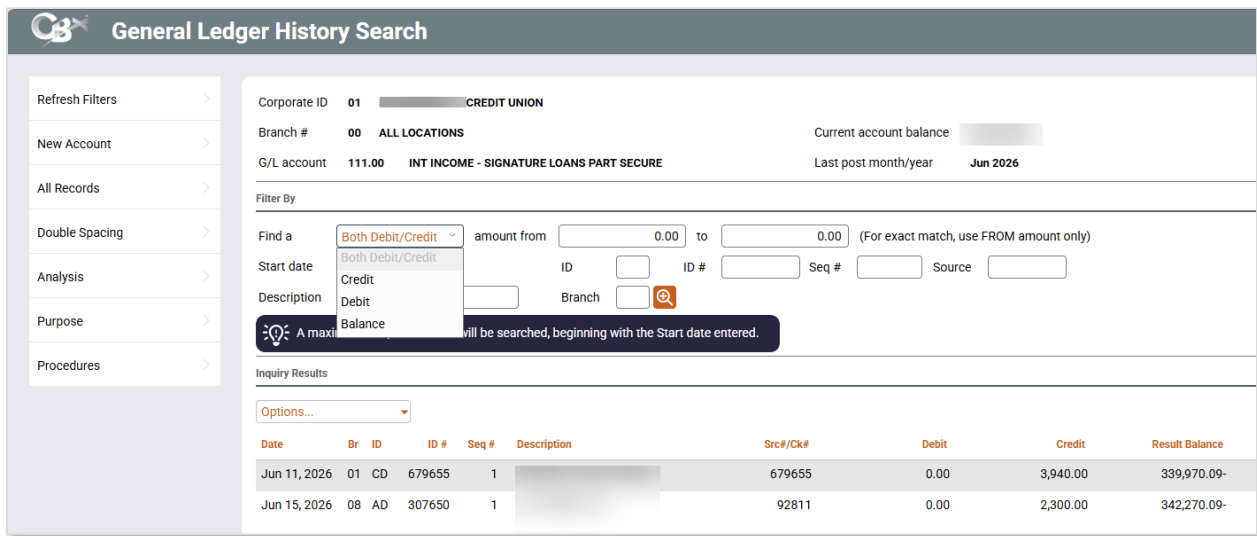

## Included in This Release

### Balance Search Added Back to G/L History Search

#### Project Number: 66366

This project adds back the balance search on the General Ledger History Search screen, accessed via **Tool #60 GL Journal History Inquiry > Enter G/L > Search History.**

Previously part of the “Search for Amount,” this is now added back as a separate search to help eliminate confusion. Options include Debit, Credit, Debit/Credit, and Balance.

### 360 Mortgage Now Included in Data Sent to Message Pay

#### Project Number: 66366

Following this deployment, 360 mortgages will now be included in the data that is sent to MessagePay, meaning your members will now see those loan types to make payments on. This update will be reflected for members beginning Wednesday, June 24th.

*Please note: this integration does not contain special handling logic for those loan types. In cases like delinquency, multiple payments per month, etc., we highly recommend monitoring those loans closely, as it is not guaranteed that payments will apply how the member intended those cases.*

## Database Changes

**Attention Database Administrators:** With each new release, new database tables/fields, or changes to existing tables/fields may be implemented. **There are no database updates in this release.**

## Tool Changes

**Attention Security Administrators:** With each new release, new tools or changes to existing tools may be implemented. **There are no tool updates in this release.**

**End**
