Notes for This Release

All projects will be available immediately, however, review the projects that will require activation or interaction with a CUSO representative.

Included in This Release

☒ **ATM/Debit Card Orders Now Highlighted**

Project Number: 66956

We are adjusting the ATM/Debit Card Maintenance screen accessed through **Tool #11**. ATM and Debit Card orders will now be highlighted to indicate an order is pending. Like Credit Cards the sequence # is highlighted when a card has been ordered that day. Once batch maintenance is completed, the card will no longer be highlighted

☒ **Missing *From* Account for Reversal Corrected**

Project Number: 67674

Clients reported that the *From* account for the transaction did not always display after processing a reversal from **Tool #869**. Research concluded that this was after the first half of the reversal was completed. This is corrected with this release.

☒ **Spell Check Added to Comment Boxes in CBX**

Project Number: 68304

We have added the spell check feature to the large comment boxes on some CBX screens.
