Web Module: Scheduled Transfer

THE POTENTIAL OF WEB MODULES AND PARTNERS

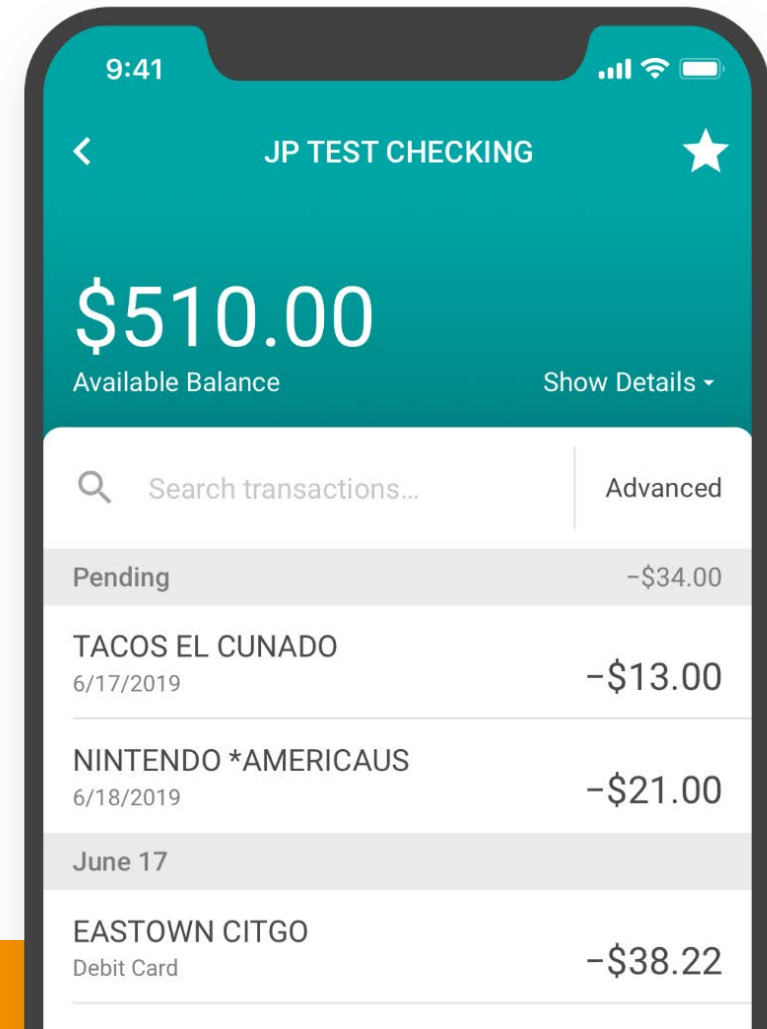

IF MTG IS GOING TO BE EFFECTIVE IN WORKING WITH THIRD PARTIES, WE NEED OPTIONS

APIS AND WEB MODULES?

MORE 'MICRO' APPROACHES VS MACRO APPROACHES

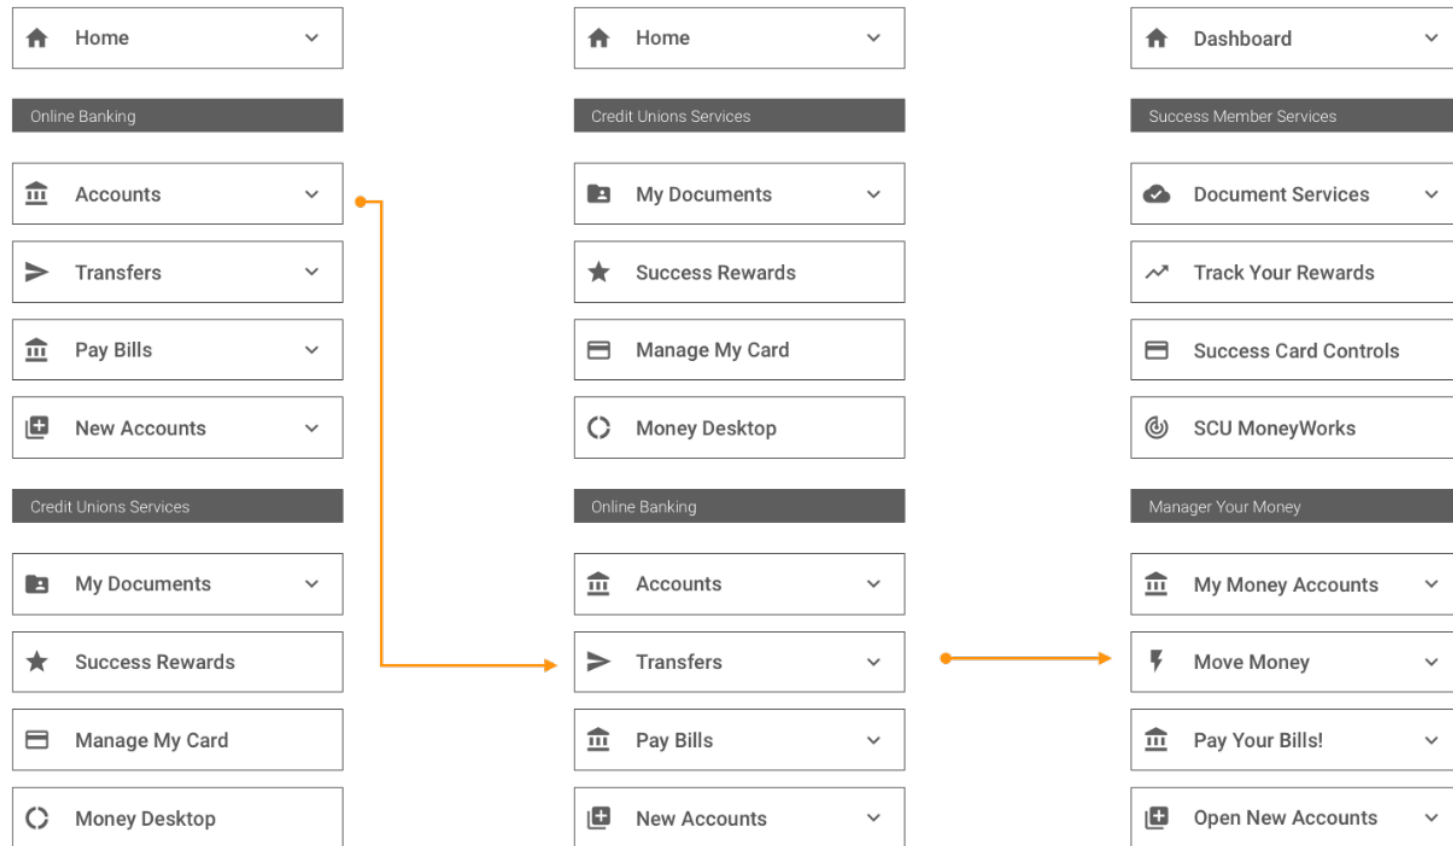

- Less risk!...Moving away from big releases to modular releases
- QC departments will have the ability to qualify specific features independent of the web solution.
- Development teams can create processes to deploy updates to modules without updating the entire web or mobile applications.
- Easier to support 1 web module/features across 3 web solutions
 - CUA to Client
 - Client to Member

IMAGINE DESIGNING YOUR OWN NAVIGATION OR RENAMING ANY FEATURE

CU PUBLISHER MAY BE THE TOOL
THAT MAKES THIS A REALITY FOR
CREDIT UNIONS IN THE FUTURE...

...AND THE FUTURE ISN'T THAT
FAR AWAY

Clear as mud, Ken...but we
might need a few details
