

Is your credit union Using Instant Issue today?
Did you know we now have an Instant Card Issue that vendors can plug into?

What is the benefit of using Instant Card Issue?

Instant Card Issue is a great way for your credit union to provide an enhanced member experience by producing a card with a member selected PIN that is fully functional for ATM, Debit or Credit Card transactions while the member is in the branch. Members do not need to wait for their card, security is enhanced, and you will see increased card usage with the Instant Activation feature.

Investing in Instant Issue provides emergency card replacements as well as a competitive edge in the market place. It is another step in going GREEN with no paper or waste.

How many vendors is SettleMINT EFT currently working with?

CU*Answers currently works with the following vendors for Instant Issue:

- **ABCORP**
(in the final phase of programming)
- **Entrust Datacard**
(in the final phase of programming)
- **HID Global**
(currently in production)

Who can I contact for additional questions/information?

Is your credit union interested in learning more about Instant Card Issue? Or are you interested in support options for a vendor different than those listed above? Reach out to Heather French hfrench@cuanswers.com or Nicole Cooper Nicole.cooper@cuanswers.com with any questions you may have!
