Managing Your Lending Queue:

View vital statistics and analyze your pipeline by branch, category or interviewer along with other filtering options. Compare past periods to current days results. Move loans from pending to booked with an effective use of underwriting codes. A Lender*VP review will ensure your team is maximizing the tools available in this area.

Managing the Lending Relationship:

Online Banking and Mobile Banking are vitally important to the member experience today. The Lender*VP review includes an analysis of you current online offerings. Take advantage of Dashboards that can help identify shopping and borrowing trends.

Risk-Based Pricing Reviews:

You could be losing income if your risk-based pricing levels are even slightly lower than they could be. A fast Lender*VP review will analyze your situation and develop a strategy to improve earnings and monitor future pricing levels.

Portfolio Analysis Reports:

Get an up-to-the-minute snapshot of your lending and collections business—every morning—with Lender*VP Lending and Collections Reports. Choose from dozens of fact-rich reports to create your own portfolio.

Recommended Reports:

Are you taking full advantage of the CU*BASE toolset? This review will highlight key dashboards that hold valuable analytics and information regarding your employees and your membership.
