

June 2015

The My CU Today Monthly Release Summary is designed to keep you informed in an ongoing basis of feature improvements, vendor enhancements, and other miscellaneous changes to mycutoday.com. This specific Monthly Release Summary covers programming changes implemented during the month of June. To learn more about all projects in the pipeline, refer to <http://www.cuanswers.com/coop/products/my-cu-today/>

Fixes

- Corrected bug that would prevent users from updating their email addresses
- Corrected bug that could prevent values from being returned by some DB queries
- Corrected an issue with the trend graph display that could make the graphs very difficult to use while the soft keyboard is displayed on a mobile device
- Corrected cosmetic error messages generated when the alert emails are created and one of the branch names has a special character in it (such as &)
- Corrected a bug that would cause the trend graph title to be duplicated under some circumstances
- Corrected an error in the positioning of the average lines that was due to rounding errors
- Corrected an issue with the trend graph display that would cause duplicate labels to be displayed for the X axis if there were less than 10 values to display
- Updated "Send Me Everything..." text to indicate all branches/selected branches as soon as the branches are changed instead of leaving the old wording until the page reloads
- Updated positioning of the "Average Line" on the trend graphs so that it is drawn in front of the data line instead of behind it

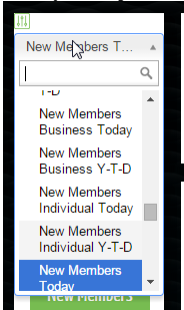

Updates

- Added notifications and indicators to let users know when emails to them or one of their subscribed recipients has been returned as undeliverable
- Added email address confirmation functionality to enable resetting the bounced email status for a given address
- * Added option to deliver all of the custom alerts from a given user to a given address as a single email message instead of the individual emails that were being sent previously
- * Added option to specify additional recipients for the "Everything Alert"

- * Added ability to add public and private annotations on a given trend graph

- Updated session timeout handling to report that the session has timed out instead of just letting the page error out
- Updated the CUA banner ad display to eliminate the jumpiness when the banners first load
- Updated the custom alert list to indicate when an additional recipient for a given alert has bounced (the additional recipients icon turns red)
- Updated "Send Me Everything for these branches" dialog to include an "All" button for selecting all of the branches
- * Choose your own favorite Minigraphs. Updated trends "Minigraphs" to allow user to specify which trends will be displayed

- * Added option to download trend graph as a PNG image

- Adjusted trend graph display so that it shows better on devices with lower screen resolutions

- Adjusted the size and positioning of the datepickers used on the trend graphs for enhanced usability and lower resolutions
- Updated trend graph output to split the branch name and field name onto separate lines
- * Updated trend graph to display the standard deviation as a shaded area surrounding the average line when the average line is displayed

- Added "Year to Date" and "Month to Date" to the list of predefined date ranges for the trend graphs
- Added "Net Members Business Today", "Net Members Business Y-T-D", "Net Members Individual Today", "Net Members Individual Y-T-D", "Net Members Today", and "Net Members Y-T-D" data points as value calculated using the "New Members ..." and "Closed Members..." data points to calculate those values
- Preparations for "Delinquency Data", "In-Process Data", and "Cash Data" trend tables
 - Delinquency Data:
 - Level 1 Delinquent Amount
 - Level 2 Delinquent Amount
 - Level 3 Delinquent Amount
 - Level 4 Delinquent Amount
 - Level 5 Delinquent Amount
 - Level 6 Delinquent Amount
 - Total Delinquent Amount
 - In-Process Data:
 - Applications Denied
 - Applications In Process
 - Loans Opened
 - New Applications
 - Cash Data:
 - Branch Cash Total
 - Teller Cash Total
 - Vault Cash Total
- Updated trend graph display so that the graph options are now under the "Options" drop down menu

- Updated trend graphs to include the option for displaying the 30, 60, 90, 180, and 365 day averages in addition to the option for displaying the average of the selected range

Backend

- Added bounced email handler to prevent sending emails to invalid addresses and notify users of email delivery problems
- Updated code that generates the subscription keys and random passwords prevent problematic characters from being included in the values
- Corrected an issue with the "Everything Alert" delivery that would cause the everything alert to be delivered to an empty recipient list
- Corrected an issue with the "Nothing to Report" emails that would cause an incorrect text only version of the email to be included under certain circumstances
- Updated back end processing to increase the size of the production window in which the site allows alert emails to be automatically delivered
- Updated site for a more uniform configuration setup
- Added "Combined Total for all Credit Unions" to the credit union selector on the trends page available at the top of the page to CSR or higher level users
