DATA Sync
powered by Asterisk Intelligence

DATA Sync (powered by Asterisk Intelligence) is a service provided to credit union business intelligence teams. This service reviews all data table changes prior to a CU*BASE release. This allows credit unions business intelligence teams to review, assess, and anticipate changes to data exchanges and reporting/analysis routines.

These changes will be outlined and provided to the credit union business intelligence team at least one week prior to the CU*BASE software release. The information will be provided to credit unions in an Excel spreadsheet with the following elements being present:

> ➢ Table
> ➢ Table Description
> ➢ Column
> ➢ Column Description
> ➢ Data type
> ➢ Length
> ➢ Whole Digits (if applicable)
> ➢ Decimal Places (if applicable)

The Asterisk Intelligence team will email two Excel spreadsheets to the credit union business intelligence team.

1. All data changes
2. Data changes specific to the credit union's DEX package

Pricing

DATA Sync Annual Subscription ------ $1,000 per year

DEX Changes -------------------------- $250 per change
