MENTORSHIP PROGRAM

credit union executives looking for a mentor for themselves or their credit union with other CEOs in the network who want to offer a helping hand.

If you would like to be a mentor, we will help connect you with a credit union leader seeking guidance. By serving as a mentor, you will not only be able to work one-on-one with another CEO, but you will also earn a discount on your CU*Answers invoice after a one year engagement with them. During that time, you will be expected to provide coaching and counseling to your assigned mentee.

It is in this spirit that we created the CU*Answers Mentorship Program, which works to facilitate that process of connecting
