#### **Contest Period**

The contest period will run for 1 full year starting October 1st, 2017 and ending September 30th, 2018. Services must be active prior to the start of the contest period.

#### **How We Determine the Winner**

TCU\*Answers will count the total number of loan note documents\* eSigned by your credit union each month. In partnership with Asterisk Intelligence, we then calculate the percentage of eSigned documents versus booked loans for the month. Then, we average all of the months to arrive at your final average for all 12 contest months. The credit union with the highest average is the winner. In the event of a tie, we will conduct a random drawing between the tied credit unions.
