## **BUSINESS CONTINUITY & RECOVERY SERVICES FROM CU\*ANSWERS**

Developing and testing your Business Continuity and Incident Response plans can seem like an overwhelming task. It requires time, resources, and skills not readily available in most organizations. Nonetheless, having an outdated plan in the hands of untrained staff puts your credit union at risk.

Use the knowledge and experience of CU\*Answers' Business Continuity professionals to identify and eliminate gaps in your response. The same team that oversees the Business Continuity Program for your core data processor is already assisting many credit unions to meet this challenge with confidence.
