

CU*Answers Video Archive Website

THIS WEBSITE IS CURRENTLY IN PRODUCTION, AND WILL BE RELEASED SOON

What's It All About?

This website will act as a video repository of the CU*Answers Leadership as part of the CEO Succession process planned for 2022.

We take pride in sharing our knowledge toward the success of everyone in the network. This sharing comes in many formats like the written and spoken word, our software and services, and our gathering events. For years, we've created short video pieces of our current and future leadership as they speak at conferences, introduce their team and respond to questions as part of development classes.

Leadership Overview Communication

Coaching Conflict Resolution

The Goal

The Video Archive Website will allow its visitors to search out and view clips from dozens of CU*Answers leaders, using filters for time period, event and individual. Want to know what Randy Karnes said about being a superhero at the 2018 Leadership Conference? Interested in how Geoff Johnson approaches delegation? Curious about how clients viewed the 2017 Boot Camp events? The website will deliver all that.

As the Board of Directors proceeds through the interview and decision process, they can use this site as one more tool toward a successful conclusion.

But Wait...There's More!

The website's usefulness won't end at the selection of a new CEO. It will be used as a constant tool, not only for future leadership choices, but also for any employee or network member who's interested in how we present ourselves.

Our network has a proud history, and as we celebrate our 50th anniversary, the site can also act as living documentary on how we got here.
